INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the full amount invested.

- Robeco Global Consumer Trends (the "Fund") invests primarily in equities of companies all over the world which benefit from the expected increase in consumer spending. Major part of the Fund's investments may be allocated to companies domiciled in, or deriving the majority of their revenues from emerging markets.
- Investments in emerging and less developed markets may involve additional risks such as legal uncertainty, social, political and economic instability, currency control and account and taxation issues etc.
- The Fund is subject to equity investment risk, market risk, concentration risk, currency risk, risk of investing in financial derivative instruments and liquidity risk.
- The Fund may engage in securities lending transactions which may involve the risk that the recipient may fail to return the lent securities on the agreed date or furnish the requested additional collateral if required. This could result in losses and negatively impact the Fund's net asset value.
- Investor should not invest in the Fund solely based on the information provided in this document and should read the offering documents for details (including the risk factors).

About the fund

Robeco Global Consumer Trends is an actively managed fund that invests in stocks in developed and emerging countries across the world. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the benchmark. The fund invests in a number of structural growth trends in consumer spending. The first is the "digital transformation of consumption". The second trend is that of the "rise of the middle class". The third trend focuses on the increasing importance of "health & wellbeing". The fund managers aim to select stocks of the structural winners within these trends.

Important Information

Unless stated otherwise, Source: Robeco. Performance is shown as of the month end in share class currency on a NAV-to-NAV price basis with dividend reinvested, net of fees.

Investment involves risks. Past performance is not indicative of future performance. The value of investments may fluctuate. This document is for information only and does not constitute any investment advice or an offer or solicitation to buy or sell in any securities or to adopt any investment strategy. Investors should not base their investment decisions solely on the information provided in this document and are advised to seek independent advice (including advice on tax implications) before making any investment decisions. Investors should ensure they fully understand the risks associated with the Fund and should also consider their own investment objectives and risk tolerance level. Please refer to the relevant offering documents, including the Prospectus, Hong Kong Offering Document and the Key Facts Statement of the Fund, for further details including the risk factors. The investment returns are denominated in stated currency, which may be a foreign currency other than USD and HKD ("other foreign currency"). US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar / other foreign currency exchange rate. No assurance can be given that the investment objective of any investment products will be achieved. All data, estimates, opinions and other information provided are as of the date shown above and may change as market conditions evolve, and are subject to change without notice. Robeco accepts no liability for any direct, indirect, or consequential loss arising from the use of this document or any comments, opinions, or estimates contained herein.

Where a reference is made to the frequency of dividend distributions, this frequency is an aim and not a guarantee. Dividend yield is not guaranteed and is not indicative of the return of the Fund. The Fund may, at their discretion, pay dividends out of capital or capital gains. Distributions out of capital may result in the reduction of an investor's original capital invested in the Fund or from any capital gains attributable to that original investment of the Fund. Also, any distributions involving the capital and/or capital gains may result in an immediate reduction of the net asset value per share of the relevant class. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Please refer to Composition of the dividend payments document available at www.robeco.com.hk for details, including the explanatory notes.

Where applicable, investors holding accumulation shares of the Fund will not receive any distributions. Instead, the income due to them will be automatically reinvested and added to the Fund and will thus contribute to a further increase in the value of the total net assets.
