

Robeco QI Emerging Markets Enhanced Index Equities K2 USD

Robeco QI Emerging Markets Enhanced Index Equities is an actively managed fund that invests in stocks of emerging market companies. The selection of these stocks is based on a quantitative model. The fund's objective is to consistently achieve a better return than the Benchmark. The fund uses a quantitative stock selection strategy which ranks stocks on their expected future relative performance using multiple factors: value, quality, momentum, analyst revisions and short-term signals. Highly ranked stocks are overweighted against the Benchmark, whereas low-ranked stocks are underweighted, resulting in a well-diversified portfolio.

Wilma de Groot, Tim Dröge, Han van der Boon, Daniel Haesen, Jan Sytze Mosselaar
Fund manager since 28-03-2012

Performance

	Fund	Portfolio	Index
1 m	8.94%	9.19%	8.85%
3 m	10.37%	10.15%	9.43%
Ytd	8.94%	9.19%	8.85%
1 Year	45.61%	44.53%	42.84%
Since 10-2024	29.98%	30.25%	28.00%

Annualized (for periods longer than one year)
Fund: Based on transaction prices of the fund.
Portfolio: Performance differences may arise between the Fund and Index due to differences in measurement periods.
For this reason portfolio returns (net of fees) are shown which have similar valuation principals as the index.

Calendar year performance

	Fund	Portfolio	Index
2025	34.54%	34.66%	33.57%
Annualized (years)			

Past performance is no guarantee of future results. The value of your investments may fluctuate. If the currency in which the past performance is displayed differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency. Performance since inception is as of the first full month. Periods shorter than one year are not annualized. Returns net of fees, based on transaction prices.

Index

Top 10 largest positions

The top ten positions are primarily the result of the large weight of these companies in the benchmark.

Fund price

31-01-26	USD	139.77
High Ytd (28-01-26)	USD	143.01
Low Ytd (02-01-26)	USD	130.57

Fees

Management fee	0.21%
Performance fee	None
Service fee	0.16%

Legal status

Investment company with variable capital incorporated under Luxembourg law (SICAV)

Issue structure	Open-end
UCITS V	Yes
Share class	K2 USD
This fund is a subfund of Robeco Capital Growth Funds, SICAV	

Registered in

Germany, Luxembourg, Singapore, Switzerland

Currency policy

Currency risk will not be hedged. Exchange-rate fluctuations will therefore directly affect The Sub-fund's share price.

Risk management

Risk management is fully integrated in the investment process to ensure that positions always meet predefined guidelines.

Dividend policy

The Sub-fund does not distribute dividend. The Sub-fund retains any income that is earned, and so its entire performance is reflected in its share price.

Fund codes

Utilities	1.2%	-1.0%	
Real Estate	0.9%	-0.4%	

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund systematically incorporates sustainability in the investment process via exclusions, ESG integration, ESG and environmental footprint targets, engagement and voting. The fund does not invest in stocks issued by companies that are in breach of international norms or where its activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the portfolio construction to ensure the ESG score of the portfolio is better than that of the index. In addition, the environmental footprints of the fund are made lower than that of the benchmark by restricting the GHG emissions, water use and waste generation. With these portfolio construction rules, stocks issued by companies with better ESG scores or environmental footprints are more likely to be included in the portfolio while stocks issued by companies with worse ESG scores or environmental footprints are more likely to be divested from the portfolio. In addition, where a stock issuer is flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement. Lastly, the fund makes use of shareholder rights and applies proxy voting in accordance with Robeco's proxy voting policy. For more information please visit the sustainability-related disclosures. The index used for all sustainability visuals is based on MSCI Emerging Markets Index (Net Return, USD).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco's SDG Framework. The framework utilizes a three-step approach to assess a company's impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

Source: Robeco. Data derived from internal processes.

Engagement

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company's SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	25.75%	47	199
Environmental	9.30%	23	88
Social	7.75%	10	43
Governance	0.81%	3	

Investment policy

Robeco QI Emerging Markets Enhanced Index Equities is an actively managed fund that invests in stocks of emerging market companies. The selection of these stocks is based on a quantitative model. The fund's objective is to consistently achieve a better return than the Benchmark. The fund uses a quantitative stock selection strategy which ranks stocks on their expected future relative performance using multiple factors: value, quality, momentum, analyst revisions and short-term signals. Highly ranked stocks are overweighted against the Benchmark, whereas low-ranked stocks are underweighted, resulting in a well-diversified portfolio.

The fund aims for a better sustainability profile compared to the Benchmark by promoting E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrating sustainability risks in the investment process and applying Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement.

Fund manager's CV

Wilma de Groot is Head of Core Quant Equities, Head of Quant Equity Portfolio Management and Deputy Head of Quant Equity. She is responsible for quant equity strategies and specializes in asset pricing anomalies, portfolio construction and sustainability integration. She has published in various academic publications including the Journal of Impact and ESG Investing, Journal of Banking and Finance, Journal of International Money and Finance, Journal of Empirical Finance and the Financial Analysts Journal.
