Sector allocation

Sector allocation is primarily influenced by issuer selection and beta positioning.

Sector allocation		Deviation index	
Financials	46.9%		0.0%
Industrials	36.7%		-9.5%
Covered	6.0%		6.0%
Utilities	6.0%		-0.9%
Agencies	3.1%		3.1%
Treasuries	2.0%		2.0%
Cash and other instruments	-0.7%		-0.7%

Currency denomination allocation

All currency exposure is hedged back to the fund's base currency.

Currency denomination allocation		Deviation index	
U.S. Dollar	54.3%		-6.1%
Euro	40.0%		10.2%
Pound Sterling	6.5%		3.3%
Canadian Dollar	0.0%		-4.0%
Australian Dollar	0.0%		-1.1%
Japanese Yen	0.0%		-0.9%
Swiss Franc	0.0%		-0.5%
Korean Won	0.0%		-0.1%

Duration allocation

The fund duration is in line with the benchmark.

Duration allocation		Deviation index	
U.S. Dollar	1.7		0.1
Euro	0.9		0.1
Canadian Dollar	-0.1		0.0
Pound Sterling	0.1		0.0

Rating allocation

The allocation to below-investment-grade bonds stands at approximately 8%.

Rating allocation		Deviation index	
AAA	6.0%		5.8%
AA	7.1%		-1.4%
A	31.7%		-13.6%
BAA	47.7%		1.7%
BA	8.2%		8.2%
Cash and other instruments	-0.7%		-0.7%

Subordination allocation

The fund continues to have exposure to subordinated financials.

Subordination type allocation		Deviation index	
Senior	79.7%		-13.7%
Hybrid	13.0%		11.0%
Tier 2	7.1%		2.6%
Tier 1	0.8%		0.8%
Cash and other instruments	-0.7%		-0.7%

The allocations shown are for illustrative purposes only. This is the current overview as of the date stated and not a guarantee of future developments. It should not be assumed that any investments in these allocations were or will be profitable. Due to rounding, the sum may not equal 100%.

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund incorporates sustainability in the investment process via exclusions, ESG integration, a minimum allocation to ESG-labeled bonds, and engagement. The fund does not invest in credit issuers that are in breach of international norms or where activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the bottom-up security analysis to assess the impact on the issuer's fundamental credit quality. In the credit selection the fund limits exposure to issuers with an elevated sustainability risk profile. Furthermore, the fund invests at least 5% in green, social, sustainable, and/or sustainability-linked bonds. Lastly, where issuers are flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement.

For more information please visit the sustainability-related disclosures.

The index used for all sustainability visuals is based on Bloomberg Global Aggregate Corporate 1-5 years (hedged into SEK).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index. Only holdings mapped as corporates are included in the figures.

Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. For comparison, index footprints are shown besides that of the portfolio. The equivalent factors that are used for comparison between the portfolio and index represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco's SDG Framework. The framework utilizes a three-step approach to assess a company's impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

ESG Labeled Bonds

The ESG-labeled bond chart displays the portfolio's exposure to ESG-labeled bonds. Specifically, green bonds, social bonds, sustainability bonds, and sustainability-linked bonds. This is calculated as a sum of weights for those bonds in the portfolio that have one of above mentioned labels. Index exposure figures are provided alongside the portfolio exposure figures, highlighting the difference with the index.

	Portfolio weight	Index weight
Green Bonds	5.55%	5.58%
Social Bonds	3.01%	0.62%
Sustainability Bonds	0.07%	0.69%

Engagement

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company's SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	14.69%	21	94
Environmental	6.76%	11	63
Social	2.36%	3	4
Governance	0.05%	2	6
Sustainable Development Goals	3.43%	3	16
Voting Related	4.11%	5	5
Enhanced	0.00%	0	0

Exclusions

The Exclusions charts display the degree of adherence to exclusion applied by Robeco. For reference, index exposures are shown beside that of the portfolio. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

Investment policy

Robeco Global Credits - Short Maturity is an actively managed fund that invests primarily in a diversified portfolio of global investment grade corporate bonds with a short maturity. The selection of these bonds is based on fundamental analysis. Performance drivers are the top-down beta positioning as well as bottom-up issuer selection. This fund has the flexibility to invest in other fixed income asset classes such as high yield, emerging credits and asset-backed securities. The fund can take limited active duration (interest-rate sensitivity) positions. The fund's objective is to provide long-term capital growth.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, and engagement.

Key risks

- The value of shares is sensitive to market fluctuations, instrument prices, and changes in political, economic, or market conditions. Corporate bonds are more risky and volatile investments compared to government bonds.
- The fund may use derivatives to achieve its investment objectives. These instruments can create leverage, increasing the fund's exposure to market fluctuations.
- A (derivative) counterparty may fail to fulfil its obligations. Counterparty risk is reduced by exchanging collateral.
- Sustainability risk factors may negatively impact investment returns. This fund promotes ESG characteristics but does not have a sustainability objective.

Fund manager's CV

Daniel Ender is Portfolio Manager Investment Grade in the Credit team. Previously, he was a Credit Analyst at Actiam. Daniel started his career in the industry in 2018 at ABN AMRO. He has a Master's in Financial Economics from Erasmus University Rotterdam and a Bachelor's in Political Science and Economics from the University of Connecticut. Daniel also is CFA® charterholder. Michael holds a degree in Business Management from the University of Nottingham. Joost Breeuwisma is Portfolio Manager Investment Grade in the Credit team. He has a focus on Global investment grade portfolios and global green bond portfolios. Prior to starting his career and joining Robeco in 2017 as a credit analyst, he obtained a Master's with Distinction in Financial Mathematics from King's College London. Joost is CFA® Charterholder.

Team info

The Robeco Global Credits - Short Maturity fund is managed within Robeco's credit team, which consists of nine portfolio managers and twenty-three credit analysts (of which four financials analysts). The portfolio managers are responsible for the construction and management of the credit portfolios, whereas the analysts cover the team's fundamental research. Our analysts have long term experience in their respective sectors which they cover globally. Each analyst covers both investment grade and high yield, providing them an information advantage and benefiting from inefficiencies that traditionally exist between the two segmented markets. Furthermore, the credit team is supported by dedicated quantitative researchers and fixed income traders. On average, the members of the credit team have an experience in the asset management industry of seventeen years, of which eight years with Robeco.

Fiscal product treatment

The fund is established in Luxembourg and is subject to the Luxembourg tax laws and regulations. The fund is not liable to pay any corporation, income, dividend or capital gains tax in Luxembourg. The fund is subject to an annual subscription tax ('tax d'abonnement') in Luxembourg, which amounts to 0.05% of the net asset value of the fund. This tax is included in the net asset value of the fund. The fund can in principle use the Luxembourg treaty network to partially recover any withholding tax on its income.

Fiscal treatment of investor

The fiscal consequences of investing in this fund depend on the investor's personal situation. For private investors in the Netherlands real interest and dividend income or capital gains received on their investments are not relevant for tax purposes. Each year investors pay income tax on the value of their net assets as at 1 January if and inasmuch as such net assets exceed the investor's tax-free allowance. Any amount invested in the fund forms part of the investor's net assets. Private investors who are resident outside the Netherlands will not be taxed in the Netherlands on their investments in the fund. However, such investors may be taxed in their country of residence on any income from an investment in this fund based on the applicable national fiscal laws. Other fiscal rules apply to legal entities or professional investors. We advise investors to consult their financial or tax adviser about the tax consequences of an investment in this fund in their specific circumstances before deciding to invest in the fund.
