Where a reference is made to the frequency of dividend distributions, this frequency is an aim and not a guarantee. Dividend yield is not guaranteed and is not indicative of the return of the Fund. The Fund may, at their discretion, pay dividends out of capital or capital gains. Distributions out of capital may result in the reduction of an investor's original capital invested in the Fund or from any capital gains attributable to that original investment of the Fund. Also, any distributions involving the capital and/or capital gains may result in an immediate reduction of the net asset value per share of the relevant class. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Please refer to Composition of the dividend payments document available at [www.robeco.com.hk](http://www.robeco.com.hk) for details, including the explanatory notes.

Where applicable, investors holding accumulation shares of the Fund will not receive any distributions. Instead, the income due to them will be automatically reinvested and added to the Fund and will thus contribute to a further increase in the value of the total net assets.
