About the fund

Robeco QI Institutional Global Developed 3D Active Equities is an actively managed sub-fund that invests in stocks issued by companies incorporated or exercising a preponderant part of their economic activities in mature economies. The Sub-fund will apply Robeco's 3D Investing approach, which seeks to consider risk, return and sustainability in the Fund's portfolio. The Sub-fund's portfolio will be optimised using a quantitative process to target returns in excess of the Benchmark, to target better sustainability characteristics than the Benchmark, while managing risk compared to the Benchmark. All decision making at portfolio level is based on the settings of the portfolio construction algorithm that considers risk, return and sustainability and the identification of under-valued and over-valued stocks which is the result of the stock's scoring on Robeco's proprietary quantitative stock-ranking model.

Performance commentary

Based on closing GAV, the fund's return was 8.94%.

The objective of the Institutional Global Developed 3D Active strategy is to consistently outperform the MSCI World Index, with relatively high activeness and strong exposure to proven quantitative factors such as value, quality and momentum. The portfolio consists of roughly 200 developed market stocks and overweights stocks with an attractive valuation, a profitable business, strong price momentum and positive recent revisions from analysts. The portfolio aims for significantly lower ESG risk than the index and reduced footprints for water use, greenhouse gas emissions and waste. By using our integrated multi-factor stock selection model, we expect the strategy to consistently outperform the benchmark.

Top 10 largest holdings

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website. The figures shown in the sustainability visuals are calculated on subfund level.

The fund aims for a better sustainability profile compared to the Benchmark by promoting certain E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrating sustainability risks in the investment process and applying Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and aims for an improved environmental footprint.

Reference

1. SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco's SDG Framework. The framework utilizes a three-step approach to assess a company's impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. Only holdings mapped as corporates are included in the figures.

2. Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. The equivalent factors that are used for comparison between the portfolio and index (where applicable) represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

3. Sustainalytics ESG Risk Rating

The chart displays the portfolio's Sustainalytics ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels.

Only holdings mapped as corporates are included in the figures.

4. Exclusions

The charts display the degree of adherence to exclusion applied by Robeco. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

Source: Robeco. We use several data input sources such as Sustainalytics, RSPO (Roundtable on Sustainable Palm Oil), World Bank, Freedom House, Fund for Peace and International Sanctions. Policy document available: [Exclusion Policy](#)

5. Engagement

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company's SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

Risk management

Risk management is fully integrated in the investment process to ensure that positions always meet predefined guidelines.

Fiscal product treatment

The fund is established in the Netherlands. The fund is a mutual fund that is open in the sense of the Dutch Corporate-Income Tax Act 1969. The fund has the status of 'tax-exempt investment institution' in the sense of article 6a of the Dutch Corporate-Income Tax Act 1969, and, as such, is exempt from corporate-income tax. The fund is also exempt from withholding Dutch dividend tax on its dividend distributions. In principle the fund cannot use the Dutch treaty network to reduce any foreign withholding tax, nor can it recover any Dutch dividend tax on its income.

Dividend policy

All of the fund's income is reinvested after deduction of costs and withholding tax. Within three months of the close of the financial year, participants can indicate whether they want the dividend to be reinvested or distributed.

Additional information for investors with residence or seat in Singapore. This document has not been registered with the Monetary Authority of Singapore ("MAS"). Accordingly, this document may not be circulated or distributed directly or indirectly to persons in Singapore other than (i) to an institutional investor under Section 304 of the SFA, (ii) to a relevant person pursuant to Section 305(1), or any person pursuant to Section 305(2), and in accordance with the conditions specified in Section 305, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. The contents of this document have not been reviewed by the MAS. Any decision to participate in the Fund should be made only after reviewing the sections regarding investment considerations, conflicts of interest, risk factors and the relevant Singapore selling restrictions (as described in the section entitled "Important information for Singapore Investors") contained in the prospectus. Investors should consult their professional adviser if you are in doubt about the stringent restrictions applicable to the use of this document, regulatory status of the Fund, applicable regulatory protection, associated risks and suitability of the Fund to your objectives. Investors should note that only the Sub-Funds listed in the appendix to the section entitled "Important information for Singapore Investors" of the prospectus ("Sub-Funds") are available to Singapore investors. The Sub-Funds are notified as restricted foreign schemes under the Securities and Futures Act, Chapter 289 of Singapore ("SFA") and invoke the exemptions from compliance with prospectus registration requirements pursuant to the exemptions under Section 304 and Section 305 of the SFA. The Sub-Funds are not authorized or recognized by the MAS and shares in the Sub-Funds are not allowed to be offered to the retail public in Singapore. The prospectus of the Fund is not a prospectus as defined in the SFA. Accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply. The Sub-Funds may only be promoted exclusively to persons who are sufficiently experienced and sophisticated to understand the risks involved in investing in such schemes, and who satisfy certain other criteria provided under Section 304, Section 305 or any other applicable provision of the SFA and the subsidiary legislation enacted thereunder. You should consider carefully whether the investment is suitable for you. Robeco Singapore Private Limited holds a capital markets services license for fund management issued by the MAS and is subject to certain clientele restrictions under such license.
