### What is this product?

<b>Type:</b>	Company With Variable Capital (SICAV) – Undertaking for Collective Investment in Transferable Securities incorporated under Luxembourg law.
<b>Objective:</b>	Robeco Life Cycle Fund 2040 is an actively managed fund that invests in a global mix of asset classes like equity, bonds, deposits, money market instruments. The fund's objective is to achieve long term capital growth. As the maturity date of the fund approaches, the mix is adjusted in order to provide a gradual investment risk reduction. This eliminates the need for investors to switch to another fund with an appropriate short term risk profile. The fund promotes certain E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions.
<b>Benchmark:</b>	The investment policy is not constrained by a benchmark and the funds do not use a benchmark even for comparison purposes.
<b>Currency:</b>	Non-Euro denominated investments are intended to be hedged back into Euro at the discretion of the Investment Manager.
<b>Subscription and Redemption:</b>	You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> .
<b>Dividend policy:</b>	Accumulating
<b>Intended Retail Investor:</b>	This Sub-fund is suitable for Investors who seek ESG considerations to be integrated as binding element in the investment process, while still seeking optimum returns. The Sub-funds are also suitable for informed and/or experienced Investors wishing to attain defined investment objectives. The Sub-funds do not provide a capital guarantee. The Investor must be able to accept moderate volatility. The Subfunds are suitable for investors who can afford to set aside the capital for at least 5-7 years.
<b>Term:</b>	The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation.
<b>Other Information:</b>	The depositary of the SICAV is J.P. Morgan SE. The English prospectus, the semi annual report and the details of the remuneration policy of the management company are documents required by law and can be obtained free of charge on <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> . The website also publishes the latest prices and other information.

### What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level.

Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.

This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

#### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

<b>Recommended holding period</b>	<b>5 years</b>
<b>Example Investment</b>	10,000 EUR

## What happens if Robeco Institutional Asset Management B.V. is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE (the "Depository"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depository. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depository is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product [and how well the product does]. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	77 EUR	537 EUR
<b>Annual cost impact (*)</b>	0.8%	0.8% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.3% before costs and 6.5% after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 EUR
Exit costs	0.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.62% of the value of your investment per year. This is an estimate based on actual costs over the last year.	62 EUR
Transaction costs	0.15% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	15 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 5 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

The product may suspend or restrict redemptions in exceptional circumstances, including during periods of materially increased redemption requests or reduced market liquidity
