## Robeco Biodiversity Equities I EUR (LU2539441290)

This fund is a subfund of Robeco Capital Growth Funds, SICAV.

Management Company: Robeco Institutional Asset Management B.V.

## Objectives and investment policy

Robeco Biodiversity Equities is an actively managed fund that invests globally in stocks and it has as its sustainable investment objective to support the sustainable use of natural resources and ecosystem services, as well as technologies, products and services that help to reduce biodiversity threats or restore natural habitats. The foregoing is implemented by mainly investing in companies that advance the following United Nations Sustainable Development Goals (UN SDGs): Clean Water and Sanitation (SDG 6), Sustainable cities and Communities (SDG 11), Responsible consumption and production (SDG 12), Life below water (SDG 14) and Life on land (SDG 15). In addition to pursuing the sustainable investment objective, the Sub-fund at the same time aims to provide long term capital growth. The Sub-fund has sustainable investment as its objective, within the meaning of Article 9 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector. The Sub-fund strives for economic results, while at the same time pursuing sustainable investment objectives which are further explained in Appendix VIII. The strategy integrates sustainability criteria as part of the stock picking process and through a theme specific sustainability assessment related to biodiversity and through the application of Robeco's Biodiversity Traffic Light framework and more information can be obtained via the website <https://www.robeco.com/files/docm/docu-robeco-biodiversity-assessment.pdf>. The portfolio is built on the basis of the eligible investment universe and an internally developed SDG framework for mapping and measuring SDG contributions.

Currency risk will not be hedged. Exchange-rate fluctuations will therefore directly affect the fund's share price.

Benchmark: MSCI World Index (Net Return, EUR)

The Sub-fund is actively managed. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The investment policy is not constrained by a benchmark but the Sub-fund uses a benchmark for comparison purposes. The Portfolio Manager has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund can deviate substantially from the issuer, country and sector weightings of the benchmark. There are no restrictions on the deviation from the benchmark. The benchmark is a broad market weighted index that is not consistent with the sustainable objective of the Sub-fund.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

## Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

Equity theme funds have a view on a specific segment of the equity market. By making the choice to focus on a specific segment the fund becomes more volatile as price movements of shares within this theme tend to have a larger impact on the value of the fund. The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the

indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

# Charges

## One-off charges taken before or after you invest

Entry charge*	0.50%
Switch charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

## Charges taken from the fund over a year

Ongoing charges	0.98%
-----------------	-------

## Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

\*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: [www.robeco.com](http://www.robeco.com)

# Past performance

Currency: EUR

1st quotation date: 31-10-2022

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.
