

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco Climate Global Credits IH USD (LU2258388102)

This fund is a subfund of Robeco Capital Growth Funds, SICAV.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco Climate Global Credits is an actively managed fund that invests mainly in nongovernment bonds all around the world. The selection of these bonds is based on fundamental analysis. Performance drivers are the top-down beta positioning as well as bottom-up issuer selection. The fund has sustainable investment as its objective, within the meaning of Article 9 of the Regulation (EU) 2019/2088 of 27 November 2019 on Sustainability-related disclosures in the financial sector. The fund aims to reduce the carbon footprint of the portfolio and thereby contribute towards the goals of the Paris agreement to keep the maximum global temperature rise well-below 2°C. The carbon footprint reduction objective will be aligned with the Solactive Paris Aligned Global Corporate Benchmark. The portfolio is broadly diversified and has the ability to invest off Benchmark in high yield (primarily BB-rated) and Emerging Credits. Performance drivers are the top-down beta positioning as well as bottom-up issuer selection. The fund's objective is also to provide long term capital growth.

The fund has sustainable investment as its objective within the meaning of Article 9 of the European Sustainable Finance Disclosure Regulation. The fund aims to reduce the carbon footprint of the portfolio and thereby contribute towards the goals of the Paris agreement to keep the maximum global temperature rise well-below 2°C. The fund integrates ESG (Environmental, Social and Governance) factors in the investment process, applies Robeco's Good Governance policy and applies normative exclusions and activity-based exclusions in line

with Article 12 of the EU regulation on Climate Transition Benchmarks, EU Paris-aligned Benchmarks and sustainability-related disclosures for benchmarks.

All currency risks are hedged.

Benchmark: Solactive Paris Aligned Global Corporate Index (hedged into USD)

The Sub-fund is managed against a Benchmark that is consistent with the sustainable investment objectives pursued by the Sub-fund. It aims to align with the Paris Agreement requirements on greenhouse gas emission reduction. For corporate bonds the Benchmark aims to represent the performance of an investment strategy that is aligned with the technical standards for EU Paris Aligned Benchmarks in areas such as exclusions and carbon reduction objectives. The Benchmark differs from a broad market index in that the latter does not take into account in its methodology any criteria for alignment with the Paris Agreement on greenhouse gas emission reduction and related exclusions.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

Corporate bonds are more risky and volatile investments compared to government bonds. The fund may use derivatives to attain its investment objectives. These instruments may present a leverage effect, which will increase the sensitivity of the fund to market fluctuations.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss.

Counterparty risk is reduced via the exchange of collateral.

- The fund invests or may invest in Chinese debt securities through Bond Connect. Investing in Chinese debt securities through Bond Connect carries increased risk, most notably liquidity, regulatory, custody and broker risks.
- The fund invests or may invest in (contingent) convertible bonds. Upon materialization of a pre-defined trigger, these instruments can convert into equity or face full or partial write down.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge*	0.50%
Switch charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	0.53%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com

Past performance

Changes

Robeco Climate Global Credits: With effect from 10 March 2021, the benchmark has been changed from Bloomberg Barclays Global Aggregate Corporates Index to Solactive Paris Aligned Global Corporate Index.

Currency: USD

1st quotation date: 09-12-2020

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.
