What is this product?

Type:	Company With Variable Capital (SICAV) – Undertaking for Collective Investment in Transferable Securities incorporated under Luxembourg law.
Objective:	Robeco Emerging Markets Climate Transition Equities is an actively managed sub-fund that invests in equities in emerging countries across the world. The Sub-fund will take exposure of at least two thirds of its total assets to equities of companies incorporated or exercising a preponderant part of their economic activities in Emerging Countries. The stock selection is based on fundamental analysis. The Sub-fund aims to make investments in assets that contribute to a climate transition. Climate transition pertains to the transitional efforts required to limit global temperature increase to well-below 2°C degrees, aligned with the goals of the Paris Agreement. This is achieved by investing in companies that are making the transition and companies are enabling the transition, as described in the Prospectus. The fund aims for a better sustainability profile compared to the Benchmark by promoting certain E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation and integrating ESG and sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund integrates ESG (Environmental, Social and Governance) factors in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions , proxy voting and aims for an improved environmental footprint.
Benchmark:	MSCI Emerging Markets Index (Net Return, GBP) The fund is actively managed. Securities selected for the fund's investment universe may be components of the benchmark, but securities outside the Benchmark may be selected too. The investment policy is not constrained by a benchmark but the fund uses a benchmark for comparison purposes. The Management Company has discretion over the composition of the portfolio subject to the investment objectives. The fund can deviate substantially from the issuer, country and sector weightings of the benchmark. There are no restrictions on the deviation from the benchmark. The benchmark is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the fund.
Currency:	The fund is exposed to the exchange rate movements of the currencies in which the assets of the fund are denominated. For the management of the fund, expectations of currency returns will be taken into consideration when making country allocations/stock selection decisions.
Subscription and Redemption:	You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from www.robeco.com/riam .
Dividend policy:	Accumulating
Intended Retail Investor:	The fund is suitable for Investors who want ESG considerations to be integrated as binding element in the investment process, but also to make a contribution to an environmental objective e.g. environmental footprint reduction, in addition to creating returns. It is also suitable for more informed and/or experienced Investors wishing to attain defined investment objectives. The fund does not provide a capital guarantee. The Investor must be able to accept substantial volatility. This fund is suitable for Investors who can afford to set aside the capital for at least 5-7 years. It is designed to accommodate the investment objective of building up capital growth, income and/or portfolio diversification.
Term:	The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation.
Other Information:	The depositary of the SICAV is J.P. Morgan SE. The English prospectus, the semi annual report and the details of the remuneration policy of the management company are documents required by law and can be obtained free of charge on www.robeco.com/riam . The website also publishes the latest prices and other information.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.

This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

- The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:
- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
 - The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
 - The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
 - For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

Recommended holding period	5 years	
Example Investment	10,000 GBP	
Performance Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	If you exit after 1 year	If you exit after 5 years
What you might get back after costs	4,070 GBP	3,890 GBP
Average return each year	-59.3%	-17.2%
Unfavourable	If you exit after 1 year	If you exit after 5 years
What you might get back after costs	8,210 GBP	9,260 GBP
Average return each year	-17.9%	-1.5%
Moderate	If you exit after 1 year	If you exit after 5 years
What you might get back after costs	10,500 GBP	12,010 GBP
Average return each year	5.0%	3.7%
Favourable	If you exit after 1 year	If you exit after 5 years
What you might get back after costs	14,500 GBP	20,790 GBP
Average return each year	45.0%	15.8%

Unfavourable: This type of scenario occurred for an investment between July 2021 and February 2025.

Moderate: This type of scenario occurred for an investment between February 2020 and January 2025.

Favourable: This type of scenario occurred for an investment between February 2016 and January 2021.

What happens if Robeco Institutional Asset Management B.V. is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE (the "Depositary"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depositary. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depositary is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product [and how well the product does]. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	13 GBP	75 GBP
Annual cost impact (*)	0.10%	0.10% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.039% before costs and 0.037% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 GBP
Exit costs	0.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 GBP

Ongoing costs taken each year

Management fees and other administrative or operating costs	0.01% of the value of your investment per year. This is an estimate based on actual costs over the last year.	1 GBP
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	12 GBP

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	0 GBP
------------------	---	-------

How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 5 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Postal Address:
Robeco Institutional Asset Management B.V
