

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Robeco High Yield Bonds FH USD (LU1618352188)

This fund is a subfund of Robeco Capital Growth Funds, SICAV  
Management Company: Robeco Institutional Asset Management B.V.

## Objectives and investment policy

Robeco High Yield Bonds is an actively managed fund that invests predominantly in bonds with a sub-investment grade rating, issued primarily by issuers from developed markets (Europe/US). The selection of these bonds is based on fundamental analysis. The fund's objective is to provide long-term capital growth. The portfolio is broadly diversified, with a structural bias towards the higher rated part in high yield. Performance drivers are the top-down beta positioning as well as bottom-up issuer selection.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, and engagement.

All currency risks are hedged.

Benchmark: Bloomberg US Corporate High Yield + Pan Euro HY ex Financials 2.5% Issuer Cap (hedged into USD)

The Sub-fund is actively managed and uses the Benchmark for asset allocation purposes. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The Sub-fund can deviate substantially from the weightings of the Benchmark. The Management Company has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund aims to outperform the Benchmark over the long run, whilst still controlling relative risk through the applications of limits (on currencies and issuers) to the extent of deviation from the Benchmark. This will consequently limit the deviation of the performance relative to the Benchmark. The Benchmark is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Sub-fund.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

## Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

High yield bonds have an elevated chance of default making funds that invest in them more volatile products within the fixed income range. The fund may use derivatives to attain its investment objectives. These instruments may present a leverage effect, which will increase the sensitivity of the fund to market fluctuations.

The following risk considerations are deemed material for this fund, and are not (adequately)

reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund invests or may invest in (contingent) convertible bonds. Upon materialization of a pre-defined trigger, these instruments can convert into equity or face full or partial write down.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

# Charges

## One-off charges taken before or after you invest

Entry charge*	None
Switch charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

## Charges taken from the fund over a year

Ongoing charges	0.77%
-----------------	-------

## Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

\*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: [www.robeco.com](http://www.robeco.com)

# Past performance

Currency: USD

1st quotation date: 18-05-2017

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.

# Practical information

- The depositary of the SICAV is J.P. Morgan SE.
- This key investor information document describes a subfund of the SICAV, the prospectus and periodic reports are prepared for the entire SICAV.
