<https://www.robeco.com/> Call +31 10 224 1224 for more information. Robeco Institutional Asset Management B.V. is authorised in the Netherlands and regulated by the Autoriteit Financiële Markten. Release Date 30/4/2026 PRIIPS Manufacturer: Robeco Institutional Asset Management B.V.

### What is this product?

<b>Type:</b>	Company With Variable Capital (SICAV) – Undertaking for Collective Investment in Transferable Securities incorporated under Luxembourg law.
<b>Objective:</b>	Robeco Sustainable Income Allocation is an actively managed fund that invests in a mix of asset classes across the world. The fund's objective is to achieve long term capital growth whilst maintaining a consistent level of income. The fund has a relatively low risk profile and uses asset allocation strategies mainly investing directly in bonds and taking exposure to other asset classes such as equities. The asset allocation strategy is subject to investments and volatility restrictions. The portfolio management team can also use other investment instruments to enhance the riskreturn profile of the fund. The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions.
<b>Benchmark:</b>	25% MSCI All Country World Index 75% Bloomberg Global Aggregate (hedged to GBP) The Sub-fund is actively managed. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The investment policy is not constrained by a benchmark but the Sub-fund uses a benchmark for comparison purposes. The Management Company has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund can deviate substantially from the issuer, country and sector weightings of the benchmark. The Sub-fund aims to outperform the benchmark over the long run, whilst still controlling relative risk through the applications of limits (on VaR Ratio) to the extent of deviation from the benchmark. This will consequently limit the deviation of the performance relative to the benchmark. The benchmark is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Sub-fund.
<b>Currency:</b>	The fund aims to align the currency exposure of the Sub-fund (excluding active currency positions) with the benchmark including through the use of derivatives. The Sub-fund may take active currency positions including through the use of derivatives. The active currency positions may cause the Sub-fund to deviate from the weights of the respective currencies in the relevant benchmark. This share class is hedged to GBP (NAV hedge)
<b>Subscription and Redemption:</b>	You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> .
<b>Dividend policy:</b>	Accumulating
<b>Intended Retail Investor:</b>	This Sub-fund is suitable for Investors who seek ESG considerations to be integrated as binding element in the investment process, while still seeking optimum returns. It is also suitable for informed and/or experienced Investors wishing to attain defined investment objectives. The Sub-fund does not provide a capital guarantee. The Investor must be able to accept volatility. This Sub-fund is suitable for Investors who can afford to set aside the capital for at least 3-5 years. It can accommodate the investment objective of capital growth, income and/or portfolio diversification.
<b>Term:</b>	The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation.
<b>Other Information:</b>	The depositary of the SICAV is J.P. Morgan SE. The English prospectus, the semi annual report and the details of the remuneration policy of the management company are documents required by law and can be obtained free of charge on <a href="http://www.robeco.com/riam">www.robeco.com/riam</a> . The website also publishes the latest prices and other information.

### What are the risks and what could I get in return?

#### Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level.

Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.

This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets. Investors may face significant difficulties in terms of time or costs for disinvesting subject to specific market conditions.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- The fund invests or may invest in (contingent) convertible bonds. Upon materialization of a pre-defined trigger, these instruments can convert into equity or face full or partial write down.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

#### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation,

which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

<b>Recommended holding period</b>	<b>3 years</b>	
<b>Example Investment</b>	10,000 GBP	
<b>Performance Scenarios</b>		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
<b>Stress</b>	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
What you might get back after costs	8,040 GBP	8,110 GBP
Average return each year	-19.6%	-6.7%
<b>Unfavourable</b>	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
What you might get back after costs	8,810 GBP	9,420 GBP
Average return each year	-11.9%	-2.0%
<b>Moderate</b>	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
What you might get back after costs	10,390 GBP	11,070 GBP
Average return each year	3.9%	3.4%
<b>Favourable</b>	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
What you might get back after costs	11,200 GBP	12,340 GBP
Average return each year	12.0%	7.3%

Unfavourable: This type of scenario occurred for an investment between November 2020 and October 2023.

Moderate: This type of scenario occurred for an investment between August 2022 and July 2025.

Favourable: This type of scenario occurred for an investment between March 2023 and February 2026.

## What happens if Robeco Institutional Asset Management B.V. is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE (the "Depository"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depository. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depository is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product [and how well the product does]. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 3 years</b>
<b>Total costs</b>	132 GBP	334 GBP
<b>Annual cost impact (*)</b>	1.3%	1.0% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.5% before costs and 3.4% after costs.

### Composition of costs

<b>One-off costs upon entry or exit</b>		<b>If you exit after 1 year</b>
Entry costs	0.50% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 50 GBP
Exit costs	0.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 GBP

Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.63% of the value of your investment per year. This is an estimate based on actual costs over the last year.	63 GBP
Transaction costs	0.19% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	19 GBP

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 GBP

## How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 3 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

The product may suspend or restrict redemptions in exceptional circumstances, including during periods of materially increased redemption requests or reduced market liquidity

## How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Postal Address:  
Robeco Institutional Asset Management B.V
