

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco QI Dynamic High Yield IH USD (LU1102563613)

This fund is a subfund of Robeco Capital Growth Funds, SICAV
Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco QI Dynamic High Yield is an actively managed fund that aims to provide long-term capital growth and offers diversified exposure to the global high yield corporate bond market, by investing primarily in CDS index derivatives. The positions in these instruments are based on quantitative models. The performance is model-driven by taking active beta and duration positions to decrease or increase the exposures towards the high-yield and rates markets within pre-defined risk limits.

The fund is classified as falling under Article 6 of Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

Currency risks are hedged.

Benchmark: Bloomberg Global HY Corporate (hedged into USD)

The Sub-fund is actively managed. The Sub-fund aims to outperform the Benchmark over the long run, whilst still controlling the risk of the Sub-fund in comparison to the Benchmark. This will consequently limit the deviation of the performance relative to the Benchmark.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

Corporate bonds are more risky and volatile investments compared to government bonds. The fund may use derivatives to attain its investment objectives. These instruments may present a leverage effect, which will increase the sensitivity of the fund to market fluctuations.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund is managed using quantitative models. Materialization of the model risk may be detrimental to fund performance.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
- The fund is managed using quantitative models. Materialisation of the model risk may be detrimental to fund performance.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Charges

One-off charges taken before or after you invest	
Entry charge*	0.50%
Switch charge	1.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing charges	0.53%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com

Past performance

Currency: USD
1st quotation date: 28-08-2014
Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.

Practical information

- The depositary of the SICAV is J.P. Morgan SE.
- This key investor information document describes a subfund of the SICAV, the prospectus and periodic reports are prepared for the entire SICAV.
