What is this product?

| | |
|-------------------------------------|--|
| Type: | Company With Variable Capital (SICAV) – Undertaking for Collective Investment in Transferable Securities incorporated under Luxembourg law. |
| Objective: | Robeco Sustainable Water is an actively managed fund that invests globally in companies that contribute to clean, safe and sustainable water supply. This includes companies active in the fields of distribution, treatment and quality monitoring of water, that enable efficiency gains for more economical water use, more and better wastewater treatment and improved water infrastructure and quality. The selection of these stocks is based on fundamental analysis. The fund has sustainable investment as its objective, within the meaning of Article 9 of the Regulation (EU) 2019/2088 of 27 November 2019 on Sustainability-related disclosures in the financial sector. The fund's objective is also to achieve a better return than the Benchmark. The strategy integrates sustainability criteria as part of the stock selection process and through a theme-specific sustainability assessment. The portfolio is built on the basis of an eligible investment universe that includes companies whose business models contribute to the thematic investment objectives. The assessment regarding relevant SDGs uses an internally developed framework, more information on which can be obtained at www.robeco.com/si . The fund has sustainable investment as its objective within the meaning of Article 9 of the European Sustainable Finance Disclosure Regulation. The fund contributes to water infrastructure and to distribution of tap water, and collection and treatment of wastewater and focuses on companies which supply to the value chain of water or which offer products or technologies which are more water efficient than others in their category. This is done by investing in companies that advance the following UN Sustainable Development Goals (UN SDGs): Good health and well-being, Clean water and sanitation, Industry, innovation and infrastructure, Sustainable cities and communities, Responsible consumption and production, Life below water and Life on land. The fund integrates ESG (Environmental, Social and Governance) factors in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, and proxy voting. |
| Benchmark: | MSCI World Index (Net Return, EUR) The Sub-fund is actively managed. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The investment policy is not constrained by a benchmark but the Sub-fund uses a benchmark for comparison purposes. The Portfolio Manager has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund can deviate substantially from the issuer, country and sector weightings of the benchmark. There are no restrictions on the deviation from the benchmark. The benchmark is a broad market weighted index that is not consistent with the sustainable objective of the Sub-fund. |
| Currency: | The fund is allowed to pursue an active currency policy to generate extra returns and can engage in currency hedging transactions. |
| Subscription and Redemption: | You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from www.robeco.com/riam . |
| Dividend policy: | Accumulating |
| Intended Retail Investor: | The Sub-fund is suitable for Investors who want their investment to fully contribute to a sustainable investment objective. It is also suitable for informed and/or experienced Investors wishing to attain defined investment objectives. The Sub-fund does not provide a capital guarantee. The Investor must be able to accept volatility. This Sub-fund is suitable for Investors who can afford to set aside the capital for at least 5-7 years. It can accommodate the investment objective of capital growth, income and/or portfolio diversification. |
| Term: | The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation. |
| Other Information: | The depositary of the SICAV is J.P. Morgan SE. The English prospectus, the semi annual report and the details of the remuneration policy of the management company are documents required by law and can be obtained free of charge on www.robeco.com/riam . The website also publishes the latest prices and other information. |

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level.

Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.

This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets. Investors may face significant difficulties in terms of time or costs for disinvesting subject to specific market conditions.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

| | |
|-----------------------------------|----------------|
| Recommended holding period | 5 years |
| Example Investment | 10,000 EUR |

| Performance Scenarios | | |
|-------------------------------------|---|---------------------------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | |
| Stress | If you exit after 1 year | If you exit after 5 years |
| What you might get back after costs | 4,690 EUR | 3,690 EUR |
| Average return each year | -53.1% | -18.1% |
| Unfavourable | If you exit after 1 year | If you exit after 5 years |
| What you might get back after costs | 7,980 EUR | 9,020 EUR |
| Average return each year | -20.2% | -2.1% |
| Moderate | If you exit after 1 year | If you exit after 5 years |
| What you might get back after costs | 10,920 EUR | 17,660 EUR |
| Average return each year | 9.2% | 12.0% |
| Favourable | If you exit after 1 year | If you exit after 5 years |
| What you might get back after costs | 15,940 EUR | 22,870 EUR |
| Average return each year | 59.4% | 18.0% |

Unfavourable: This type of scenario occurred for an investment between February 2025 and March 2026.

Moderate: This type of scenario occurred for an investment between April 2018 and March 2023.

Favourable: This type of scenario occurred for an investment between January 2017 and December 2021.

What happens if Robeco Institutional Asset Management B.V. is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE (the "Depository"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depository. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depository is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product [and how well the product does]. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | 7 EUR | 66 EUR |
| Annual cost impact (*) | 0.1% | 0.1% each year |

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.1% before costs and 12.0% after costs.

Composition of costs

| One-off costs upon entry or exit | If you exit after 1 year |
|----------------------------------|--|
| Entry costs | 0.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge. |

| | | |
|---|---|-------|
| Exit costs | 0.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.01% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 1 EUR |
| Transaction costs | 0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 6 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | 0 EUR |

How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 5 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

The product may suspend or restrict redemptions in exceptional circumstances, including during periods of materially increased redemption requests or reduced market liquidity

How can I complain?

Complaints about the behaviour of the person who advised you on the product or sold it to you, should be addressed directly to that person. Complaints about the product or the behaviour of the manufacturer of this product should be directed to the following address:

Postal Address:
Robeco Institutional Asset Management B.V
