The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Rolinco - EUR E (NL0000289817)

Rolinco is a share class of Rolinco N.V.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Rolinco N.V. is an actively managed fund that invests equities of companies incorporating or exercising a major part of their economic activities in identified themes. These include transforming technologies, changing sociodemographics, and preserving earth. This is achieved by investing in firms that are well positioned to benefit from structural changes in the economy as well as companies contributing to solving nature-based problems, fulfilling basic societal needs and addressing inefficiencies. The Fund aims to provide long term capital growth.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions.

The fund can engage in currency hedging transactions.

Benchmark: MSCI All Country World Index (Net Return, EUR)

The Fund does not use a Benchmark for its investment policy. The Fund is actively managed.

The Fund is not constrained by a Benchmark but the Fund uses a reference index for comparison purposes. The MSCI All Country World Index is used as a reference for comparison of the performance. The majority of stocks selected will be components of the reference index, but stocks outside the reference index may be selected too. The Fund can deviate substantially from the weightings of the reference index. The Fund can deviate substantially from the issuer, country and sector weightings of the reference index. There are no restrictions on the deviation from the reference index. The reference index is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Fund.

This share class of the fund will distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

Equity theme funds have a view on a specific segment of the equity market. By making the choice to focus on a specific segment the fund becomes more volatile as price movements of shares within this theme tend to have a larger impact on the value of the fund. The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the

indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
