What is this product?

Type:	Dutch N.V. – An investment company with variable capital incorporated under Dutch law.
Objective:	Rolinco N.V. is an actively managed fund that invests in equities of companies incorporating or exercising a major part of their economic activities in long term structural themes. These include transforming technologies, changing sociodemographics, and preserving earth. This is achieved by investing in firms that are well positioned to benefit from structural changes in the economy as well as companies contributing to solving nature-based problems, fulfilling basic societal needs and addressing inefficiencies. The fund's objective is to achieve a better return than the broad equity index. The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions.
Benchmark:	MSCI All Country World Index (Net Return, EUR) The Fund does not use a Benchmark for its investment policy. The Fund is actively managed. The Fund is not constrained by a Benchmark but the Fund uses a reference index for comparison purposes. The MSCI All Country World Index is used as a reference for comparison of the performance. The majority of stocks selected will be components of the reference index, but stocks outside the reference index may be selected too. The Fund can deviate substantially from the weightings of the reference index. The Fund can deviate substantially from the issuer, country and sector weightings of the reference index. There are no restrictions on the deviation from the reference index. The reference index is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Fund.
Currency:	The fund can engage in currency hedging transactions.
Subscription and Redemption:	You can purchase or sell (partial) units any given workday, with the exception of Fund Holidays. An overview of fund holidays can be retrieved from www.robeco.com/riam .
Dividend policy:	Distributing - Annually
Intended Retail Investor:	The Fund is suitable for Investors who seek ESG considerations to be integrated as binding element in the investment process, while still seeking optimum returns. The Fund is suitable for investors who see funds as an easy way to benefit from developments in the stock markets. Investors must be able to absorb sizeable temporary losses and should have experience with volatile products. The Fund is suitable for investors who can afford to set aside the capital that they have invested in the Fund for at least seven years.
Term:	The fund does not have a fixed term of existence or maturity period. In certain circumstances, as described in the fund documentation, the fund may be unilaterally terminated following written notice to shareholders subject to compliance with the fund documentation and applicable regulation.
Other Information:	The depository of the fund is J.P. Morgan SE. The English prospectus, the Dutch (half-)yearly reports and details of the remuneration policy are documents required by law and are available free of charge via www.robeco.nl/riam . The website also publishes the latest prices and other information.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level.

Be aware of currency risk. If you receive payments in a currency different to that of your home jurisdiction, the final return you will get will depend on the exchange rate between the two currencies.

This risk is not considered in the risk indicator shown. If we are not able to pay you what is owed, you could lose your entire investment. This product does not include any protection from future market performance so you could lose some or all of your investment.

The following risk considerations are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years.

What happens if Robeco Institutional Asset Management B.V. is unable to pay out?

The fund's assets are held separately from Robeco Institutional Asset Management B.V. (the "Manager"). A pay-out of the fund's assets is thus not affected by the financial position or potential default of the Manager. The financial instruments in the portfolio of the fund are placed in custody with J.P. Morgan SE (the "Depository"). The fund runs the risk that its assets placed in custody may be lost as a result of the liquidation, insolvency, bankruptcy, negligence of, or fraudulent activities by, the Depository. In that case the fund may suffer a financial loss. However this risk is mitigated to some extent as the Depository is required by law to keep the fund's assets separate from its own assets. An investor compensation or guarantee scheme is not applicable in case of such financial loss.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product [and how well the product does]. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested. For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	126 EUR	1,012 EUR
Annual cost impact (*)	1.3%	1.4% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.4% before costs and 9.1% after costs.

Composition of costs

One-off costs upon entry or exit	If you exit after 1 year
----------------------------------	--------------------------

Entry costs	0.00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 EUR
-------------	--	-------

Exit costs	0.00% of your investment before it is paid out to you. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 EUR
------------	---	-------

Ongoing costs taken each year

Management fees and other administrative or operating costs	1.16% of the value of your investment per year. This is an estimate based on actual costs over the last year.	116 EUR
---	---	---------

Transaction costs	0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	10 EUR
-------------------	---	--------

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	0 EUR
------------------	---	-------

How long should I hold it and can I take money out early?

We have determined the recommended holding period of this product to be 5 years.

The recommended holding period of this product is determined taking into consideration the nature of underlying investment securities and the volatility of thereof. The product can be traded daily and no minimum holding period applies. Exiting before the end of the recommended holding period does not bear any additional risks or costs other than those mentioned in the text above.

The product may suspend or restrict redemptions in exceptional circumstances, including during periods of materially increased redemption requests or reduced market liquidity
