Subscriptions and publications

No subscription can be accepted on the basis of financial reports such as this report. Subscriptions may only be accepted on the basis of the current prospectus, supplemented by the Company's latest annual report, and in the event that the Company's annual report has been published more than eight months previously, its latest semi-annual report. Financial reports, the prospectus and Key Information Document are available on the website www.robeco.com and may be obtained free of charge at the Company's registered office.

Representative and paying agent in Switzerland

ACOLIN Fund Services AG, Maintower, Thurgauer strasse 36/38, CH-8050 Zürich, is the Fund's representative in Switzerland. Copies of the Key Information Document and prospectus, articles of incorporation, (semi) annual reports and a list of all purchases and sales in the investment portfolio during the reporting period are available from the above address free of charge. UBS Switzerland A.G., Bahnhofstrasse 45, CH-8001 Zurich (Postal address Badenerstrasse 574, Postfach, CH-8098 Zürich) is the Company's paying agent in Switzerland.

Information service in Germany

Copies of the articles of incorporation, Key Information Document and prospectus and the annual and semi-annual reports may be obtained free of charge from the offices of the information service in Germany: Robeco Deutschland, Zweigniederlassung der Robeco Institutional Asset Management B.V., Taunusanlage 17, D-60325 Frankfurt am Main. The prices at which shares are issued and repurchased are published on www.robeco.de. A list of all purchases and sales in the Company's investment portfolio during the reporting period is available at the paying agent/information service in Germany free of charge.

Representative in Taiwan

Taishin Securities Investment Trust Co Ltd, 1F, No. 9-1, Dehui St., Zhongshan Dist., Taipei City, 104 Taiwan.

Representative in Hong Kong

Robeco Hong Kong Limited, 27/F Man Yee Building, 68 Des Voeux Road Central, Central, Hong Kong SAR, China.

Robeco

Where reference is made to 'Robeco', it refers to 'Robeco Institutional Asset Management B.V.' (hereafter "Robeco" or "RIAM"), which includes the activities of the other entities which are in the scope of Robeco's management.

Report of the Board of Directors

General

Website

An information update on the Fund's investment policies, returns and investment portfolio can be found on www.robeco.com/en/riam.

Code of conduct

The Board of Directors adheres to the 11 principles of the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg investment funds and considers the Fund to be in compliance with the principles in all material respects.

Merger of Sub-funds

In accordance with the decision made by the Board of Directors, Robeco Global Gender Equality has been merged into Robeco Global SDG Equities. The decision to merge this Sub-fund into the receiving Sub-fund has been taken for the following reasons: (1) the Merger will provide economies of scale benefits associated to Sub-funds with a greater size which will be in the best interest of the shareholders, (2) lack of expected future growth in the merging Sub-fund and better expected future growth prospects of the receiving Sub-fund, and (3) better investment diversification potential of the receiving Sub-fund, therefore it has been considered appropriate to transfer the merging Sub-funds to the receiving Sub-funds.

Following the mergers, the merging Sub-fund ceased to exist.

Below table states the merging and receiving share-classes including the conversion rates.

Report of the investment manager

General market review

The global economy proved resilient in 2025, growing by 3.2% despite a landmark shift in global trade dynamics, persistent uncertainty about economic policy, concerns about central bank independence and elevated public debt levels.

Substantial investments in AI, led by the US and China, are reshaping the economy. Meanwhile, after several years marked by volatile inflation and supply-chain disruptions, inflation further normalized in 2025, supported by easing pressure on the prices of goods outside the US, falling energy prices, a weaker US dollar and cooling labor markets in advanced economies.

In the US, economic activity was stronger than had been anticipated in the wake of the announcement in April of the highest US tariffs since the 1930s. Real GDP grew by 2.2%, supported by solid private consumption and continued investments in productivity-enhancing AI. The US labor market entered a “low hiring, low firing” environment, with unemployment hovering around 4.3% throughout the year, around 30 basis points higher than in 2024 but still consistent with a tight labor market. Core inflation fell to 2.6%, enabling the Federal Reserve to cut interest rates modestly. Fiscal policy remained expansionary, with rising borrowing costs for the US Treasury and high defense expenditure outweighing revenues from tariffs, resulting in a US budget deficit of 6.2% over the year. Companies spent substantial amounts on digital infrastructure, data centers and AI-related projects, reinforcing medium-term productivity expectations while solidifying the US’s technological leadership.

The Eurozone’s GDP grew by a more modest 1.5% in 2025, with this growth primarily driven by rising real incomes, which underpinned a recovery in consumption. A small but meaningful rebound in industrial production thanks to European energy prices falling over the year also contributed. Inflation continued to fall toward the European Central Bank’s (ECB) target, sinking to 2.0% by the end of the year, reducing the pressure on household purchasing power. As a result, the ECB considered itself to be in a “good place”, with interest rates at 2.0% at the end of 2025. Germany’s ratification in March of a major constitutional amendment to relax the country’s debt rules, enabling defense spending to surpass 1% of GDP without borrowing limits, represented a major shift in Germany’s fiscal stance. After a weak 2024 the German economy only recovered moderately in 2025, expanding by 0.2%, with peripheral Eurozone economies growing more strongly thanks to resilient services demand. High household savings, subdued consumer sentiment, the Russia-Ukraine conflict, the imposition of US tariffs and a stronger euro continued to put a lid on the Eurozone’s overall economic momentum.

Economic growth in emerging markets varied considerably over the year. China’s GDP grew by around 5.0% While the property sector remained weak and cautious household sentiment held back growth, stabilizing industrial activity and stimulus measures, including targeted liquidity support and small reductions in policy rates and reserve requirements, were supportive. Strong overall exports, particularly to Southeast Asia and Europe, offset weaker domestic demand and a steep decline in exports to the US on the back of reciprocal tariffs. The Indian economy again outperformed other major emerging economies, growing by 6.7%, driven by robust domestic consumption, the roll-out of new infrastructure and efficiency gains linked to ongoing tax reforms. Meanwhile, Southeast Asian economies benefited from resilient tourism and the diversification of global supply chains, although they continued to face external headwinds. Oil-exporting economies faced a challenging environment. Brent Crude prices averaged around USD 65 to 70 per barrel throughout 2025, down from an average of between USD 75 to 80 the previous year as a result of oversupply and weaker-than-expected demand from China and Europe. Several oil-dependent economies adjusted their fiscal frameworks accordingly, revising their budget assumptions and accelerating plans to diversify. For example, producers in Latin America and the Middle East continued to invest in energy-transition-related projects.

Overall, 2025 could be seen as a year of adjustment, with economies adapting to lower inflation, which enabled most central banks to stay in easing mode, and a cyclical softening in trade due to tariffs and barriers to trade increasing. The structural forces of digitalization, the energy transition and geopolitics, led by the US assuming a new position in the world order, contributed to macroeconomic dynamics over the year.

Market developments

Global Equity Market Developments in 2025

The year 2025 proved to be one of the most volatile and eventful periods for global equity markets in recent history. Early optimism, particularly in the United States, was driven by expectations of deregulation and pro-business policies. This sentiment was abruptly deranged in early April when sweeping “Liberation Day” tariffs triggered the sharpest global equity correction since 2020, with the S&P 500 tumbling nearly 10% in just two days. While a partial pause in tariff escalation helped stabilize markets, political and policy uncertainty remained a defining feature throughout the year.

Despite these headwinds, US equities demonstrated notable resilience, supported by solid corporate earnings and continued investment momentum in artificial intelligence (AI). However, market gains were highly concentrated in a small number of large technology stocks, leaving broader indices vulnerable to inflation concerns and recurring risk-off episodes. Strategies with elevated US exposure therefore experienced ongoing volatility.

Report of the Board of Directors (continued)

Market developments (continued)

Global Equity Market Developments in 2025 (continued)

In contrast, Asia and emerging markets delivered strong outperformance. China's technology sector led a revival driven by AI innovation, while a weaker US dollar, improving domestic fundamentals, strong earnings growth, and credible central bank policies, supported equity returns across emerging regions. Europe also outperformed, benefiting from substantial fiscal stimulus, most notably Germany's €500 billion infrastructure program, alongside increased defence spending, ECB rate cuts, and attractive valuations. However, momentum weakened later in the year, as Europe's limited exposure to the dominant AI theme weighed on relative performance.

From a style perspective, value equities experienced a turbulent year as former market leaders, including several of the "Magnificent Seven," lost momentum. By year-end, value and growth equities were on more equal footing than in recent years, reflecting a broader rebalancing in market leadership.

Emerging markets broke a four-year underperformance streak, led by exceptional gains in Korea and strong AI-linked performance in China and Taiwan. Currency movements played a significant role, with a weak US dollar amplifying USD-based returns.

Across equity strategies, market dynamics played out differently in 2025. Fundamental approaches were shaped by concentrated leadership and regional dispersion, while quant-oriented strategies reflected the dominance of a small number of macro forces – most notably trade policy shocks and the AI cycle – alongside elevated dispersion and shifting correlations. From a thematic perspective, AI remained the primary driver, but returns increasingly reflected differentiation between perceived winners and laggards, with knock-on effects across sectors such as financials, energy, and infrastructure.

Currency movements also influenced outcomes, with a weaker US dollar supporting equity returns in emerging markets and Europe from a global investor perspective.

Overall, 2025 was characterized by volatile but resilient markets, pronounced regional dispersion, concentrated leadership, and shifting investor preferences, underscoring the continued importance of diversification across regions, styles, and themes.

Fixed income market developments in 2025

Fixed income markets navigated a year of pronounced volatility shaped by monetary policy shifts, fiscal concerns, and geopolitical shocks. Government bond yields moved sharply as central banks diverged: the ECB cut rates through mid-year before signalling a hawkish tilt in December, while the Federal Reserve held steady until September and then delivered three rate cuts. Japanese yields climbed above 2% as the Bank of Japan continued its hiking cycle.

Trade tensions and tariff announcements early in the year triggered risk-off episodes and steepening in US and European curves, while fiscal pressures and rating downgrades added to volatility at the long end. Geopolitical events, including Middle East conflicts and surging defence spending in Europe, influenced inflation expectations and issuance dynamics.

Credit markets proved resilient despite intermittent stress. Investment grade spreads tightened overall, supported by strong technicals, while high yield returns were mainly driven by carry. Elevated issuance and event risk late in the year were absorbed smoothly as sentiment improved following monetary easing.

Overall, 2025 underscored the importance of diversification and disciplined risk management as fixed income markets adjusted to evolving trade policies, fiscal developments, and global political uncertainty.

Market developments Multi-Asset strategies

Capital markets experienced heightened volatility over 2025. Most of this uncertainty stemmed from Trump's announcement of US tariffs, broader geopolitical risks and ongoing speculation on the pathway of US interest rate cuts.

2025 saw a major equity rotation into previously underweighted regions like the eurozone and emerging markets. Conversely, international investors reduced their appetite for US investments. This was most visible in the poor performance of US stocks and the significant depreciation of the dollar versus developed and emerging market currencies.

European equities benefited from positive economic surprises and Germany's EUR 1 trillion defence spending plan, which boosted defence stocks. In China, AI breakthroughs by DeepSeek and signs of stabilization in property prices supported equities, despite ongoing consumer weakness.

Gold was the big beneficiary of the uncertainty, hitting a new all-time high. Gold remains a resilient diversifier supported by strong central bank buying and growing Asian demand.

Government bonds and credit offered more muted returns over 2025. High yield spreads remained fairly stable over the year with low default rates, which offered investors solid carry returns. The falling US dollar gave emerging market debt local currency bonds a very supportive backdrop.

Risk Management

The presence of risks is inherent to the character of asset management. It is therefore very important to have a procedure for controlling these risks embedded in the company's day-to-day operations. The Management Company ensures that risks are effectively controlled via the three lines model: Robeco management (first line), the Compliance and Risk Management departments (second line) and the Internal Audit department (third line).

The Robeco management team is primarily responsible for risk management as part of its day-to-day activities. The Compliance and Risk Management departments develop and maintain policies, methods and systems that enable the management to fulfill their responsibilities relating to risk. Furthermore, portfolios are monitored by these departments to ensure that they remain within the investment restrictions under the Terms and Conditions for Management and Custody and the information memorandum, and to establish whether they comply with the internal guidelines. The Risk Management Committee decides how the risk-management policies are applied and monitors whether risks remain within the defined limits. The Group Internal Audit department carries out audits to assess the effectiveness of internal control.

Robeco uses a risk management and control framework that helps control all types of risk. Within this framework, risks are periodically identified and assessed as to their significance and materiality. Internal procedures and measures are focused on providing a structure to control both financial and operational risks. Management measures are included in the framework for each risk. Active monitoring is performed to establish the effectiveness of the procedures and measures of this framework.

Operational risk

Operational risk is the risk of loss as a result of inadequate or failing processes, people or systems. Robeco constantly seeks opportunities to simplify processes and reduce complexity in order to mitigate operational risks. Automation is a key resource in this regard and Robeco uses systems that can be seen as the market standard for financial institutions. The use of automation increases the IT risk. This risk can be divided into three categories. The risk that unauthorized persons gain access is managed by means of preventive and detective measures to control access to the network and to systems and data. Processes such as change management and operational management ensure monitoring of a working system landscape. Lastly, business continuity measures are in place to limit the risk of breakdown as far as possible and to restore operational effectiveness as soon as possible in the event of disaster. The effectiveness of these measures is tested regularly both internally and externally.

Compliance risk

Compliance & Integrity risks embody the risk of corporate and individual behaviour that leads to insufficient compliance with laws and regulations and internal policies to such an extent that in the end this may cause serious damage to confidence in Robeco and in the financial markets. Robeco's activities – collective and individual portfolio management – are subject to European and local rules of financial supervision. Observance of these rules is supervised by the national competent authorities (in the Netherlands the Authority for the Financial Markets, AFM and the Central Bank of the Netherlands, DNB and the CSSF in Luxembourg).

³ Share class deactivated in reporting period. See table on pages 7 to 8.

⁴ 3 year performance since inception/until deactivation.

Report of the Board of Directors (continued)

Sustainable investing

All Robeco's investment activities are in accordance with the Principles for Responsible Investing (PRI). Responsibility for implementing sustainable investing lies with Robeco's CIO, who holds a seat on Robeco's Executive Committee.

Fulfilling the responsibilities in the field of stewardship forms an integral part of Robeco's approach to sustainable investing. Robeco publishes its own stewardship policy on the website. This policy describes how Robeco deals with possible conflicts of interest, how the companies in which the Sub-funds invest are monitored, how the activities in the field of engagement and voting are conducted, and how the stewardship activities are reported.

Constructive and effective activities under active ownership encourage companies to improve their management of risks and opportunities in the field of ESG. These in turn, should contribute to establish a better competitive position and improve profitability and moreover have a positive impact on the community. Active ownership furthermore involves voting and engagement. Robeco exercises, in line with its policy, its voting rights for the shares in its investment funds all over the world. Robeco uses this engagement to address strategic ESG issues that might affect value creation in the long term.

Robeco has research available from leading sustainability experts, including own proprietary research from the sustainable investing research team. This dedicated sustainable investing research team works together very closely with the investment teams to provide them with in-depth sustainability information. The investment analysis focuses on the most material ESG factors and the connection with the financial performance of a company. Robeco can then focus on the most relevant information in performing the investment-analysis and can reach enhanced investment decisions.

To help customers contribute to their sustainable investment objectives, Robeco has developed a methodology that analyses the contribution of investee companies to the Sustainable Development Goals (SDGs) and has developed SDG investment solutions. Furthermore, Robeco contributes to the SDGs by integrating ESG factors in its decision-making process for investments and encourages companies to act in support of these goals by means of a constructive dialogue.

Robeco's climate change policy is focused on integrating climate issues in investments when financially material and engaging with companies. Furthermore climate risks for the funds are assessed and monitored by Robeco's financial risk management department.

Robeco pursues an exclusion policy for companies that are involved in the production of or trade in controversial weapons such as cluster munitions and anti-personnel mines, for tobacco companies and for companies that seriously and habitually violate either the United Nations Global Compact (UNGC) or the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises. Robeco applies strict criteria for this last category and if a dialogue fails, the Company can be excluded. Robeco publishes its exclusion policy and the list of exclusions on its website.

The SFDR classifications of the Robeco Capital Growth Sub-funds are shown in the table below. More information is available in the precontractual SFDR disclosures of the fund on the Robeco website. Attached to this annual report for each article 8 Sub-fund an Annex IV disclosure can be found with details of the achieved ESG characteristics over the reporting period. For each article 9 Sub-fund an Annex V disclosure is attached with detailed information on the achievement of the sustainability goals over the reporting period.

The Statistical Information forms a part of the Notes to the Financial Statements.

Notes to the financial statements as at 31 December 2025

1. General

The Company was incorporated on 2 May 1997 for an undetermined period of time as an open ended investment company based in Luxembourg, issuing and redeeming its shares on demand at prices based on the respective net asset value per share. Its Articles of Incorporation were published in the 'Memorial, Recueil des Societes et Associations' of the Grand Duchy of Luxembourg (the 'Memorial') on 6 June 1997. The Articles of Incorporation were last amended and became effective as per 1 January 2022. The Company is a 'Societe d'Investissement a Capital Variable' (SICAV) pursuant to the law of 10 August 1915, as amended, on commercial companies and to part I of the law of 17 December 2010, on undertakings for collective investment of the Grand Duchy of Luxembourg.

The Company takes the form of an umbrella fund. It is made up of several Sub-funds each representing an investment portfolio and other assets and liabilities corresponding to a different investment policy. Each Sub-fund is therefore represented by different types of shares with one or more classes of shares. The Board of Directors has the authority to issue different categories of shares within each of the sub-funds. The Directors of the Company may at any time establish new Sub-funds and/or may decide upon the issue of class A, AH, D, D2, D2H, D2HL, D2L, DCo, DH, DHCo, DHL, DL, F, F2, F2H, FCo, FH, FHCo, FHL, FL, I, ICo, IH, IHC, IHHi, IHL, IL, IM, IMH, IMHL, J, K, K1, K1H, K2, K2H, K3, K3H, KH, L, M, M2, M2H, MH, ML, S, SH, SHL, SL, X, XH, Y, YH, Z, Z2, Z2H, ZH, ZHL, ZL, 0DH, 0FH, 0IH, 0MH, 2FH and 2IH shares (accumulating classes) and class A1, A1H, B, Ba, BaH, BH, BHL, BL, Bx, BxH, BxHL, BxL, C, CH, CHL, CL, Cx, CxH, CxHL, CxL, D3, D3H, D3HL, D3L, E, EH, G, GH, GHL, GL, IB, IBH, IBHL, IBL, IBx, IBxH, IBxHL, IBxL, IE, IEH, IEL, IEx, IExH, IMB, IMBxH, K1E, K1EH, K2E, K2EH, K3E, K3EH, KE, M3, M3H, MB, MBH, MBx, MBxH, SE, SEH, XG, XGH, YE, YEH, ZB, ZBH, ZEH, 0BxH, 0CH, 0D3H, 0EH, 0IEH, 2CH and 2EH shares (distributing classes) in existing or new Sub-funds.

Legal entity

The Company as a whole constitutes a single legal entity, however the assets of any one Sub-fund will only be available to satisfy the rights of investors in relation to that Sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation or liquidation of the Sub-fund. For the purpose of the relations as between shareholders, each Sub-fund is deemed to be a separate entity.

Dividend policy

The general policy regarding the appropriation of net income and capital gains is as follows:

Class D, D2, D2H, DCo, DH, DHCo, DL, F, F2, F2H, FCo, FH, FHCo, FL, I, ICo, IH, IHC, IHI, IL, J, K, KH, M, M2, M2H, MH, ML, S, SH, X, XH, Y, YH, Z, Z2, Z2H, ZH, 0D, 0DH, 0F, 0FH, 0I, 0IH, 0MH, 2F and 2I shares (accumulating).

Income is reinvested and added to the relevant Sub-funds and contributes to a further increase in value of the total net assets.

Class B, BH, Bx, BxH, C, CH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IExH, KE, M3, M3H, MBxH, SE, SEH, YE, YEH, ZB, ZBH, 0BxH, 0CH, 0D3H, 0E, 0EH, 0IEH, 2C and 2E shares (distributing).

After the end of the reporting period, the Company can recommend what distribution shall be made from the net investment income and net capital gains attributable to the Class B, BH, Bx, BxH, C, CH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IExH, KE, M3, M3H, MBxH, SE, SEH, YE, YEH, ZB, ZBH, 0BxH, 0CH, 0D3H, 0E, 0EH, 0IEH, 2C and 2E shares.

The annual general meeting of shareholders will determine the dividend payment. The Board of Directors of the Company may decide to distribute interim dividends, in accordance with Luxembourg law.

General remarks

As provided by the 2010 law, the Company may decide to distribute dividends with no other limit than the obligation that any such dividend distribution does not reduce the net asset value of the Company below the legal minimum amount. Similarly, the Company may distribute interim dividends and may decide to pay dividends in shares. If dividends are distributed, payments of cash dividends to registered shareholders will be made in the currency of the relevant share class to such shareholders at the addresses they have given to the Registrar Agent. Dividend announcements (including names of paying agents) and all other financial notices concerning the Funds shall be published on www.robeco.com/riam and published in those newspapers as the Board of Directors shall determine from time to time. Dividends not collected within five years will lapse and accrue for the benefit of the Company in accordance with Luxembourg law.

Open-ended fund

The Fund is an open-ended investment Company, meaning that, barring exceptional circumstances, the Fund issues and purchases its shares on a daily basis at net asset value prices per share. The Company reserves the right to refuse any subscription request at any time.

Notes to the financial statements as at 31 December 2025 (continued)

1. General (continued)

Swing pricing

Shares are issued and redeemed on the basis of the net asset value per share. However, the actual costs of purchasing or selling assets and investments for a Sub-fund may deviate from the latest available prices, as appropriate, when calculating the net asset value per share. This deviation can be caused by duties and charges, and spread from buying and selling prices of the underlying investments ('spreads'). These costs have an adverse effect on the value of a Sub-fund and its underlying share classes, and are known as dilution. To mitigate the effects of dilution, the company may, at its discretion, make a dilution adjustment to the net asset value per share on any valuation day. The company will retain the discretion in relation to the circumstances under which to make such a dilution adjustment. At the end of the reporting period, no swing adjustments were made.

The dilution adjustment will involve adding to (when the Sub-fund is in a net subscription position) and deducting from (when the sub-fund is in a net redemption position) the net asset value per share, such figure as the Company considers representing an appropriate figure to meet the cash flow costs. The resultant amount will be the price rounded to such number of decimal places as the Company deems appropriate. The dilution adjustments may vary depending on the order type (net subscription or net redemption), on the underlying asset classes for any Sub-fund or on the market conditions. The dilution adjustments as well as the dealing levels from which they become applicable may be amended from time to time depending on market conditions or any other situation where the Company is of the opinion that the interests of the shareholders require such amendment(s).

For any given valuation day, the swing factor adjustment is limited to a maximum of 2% of what the net asset value would otherwise be. In exceptional circumstances, the Board of Directors may, in the best interest of its shareholders, decide to temporarily increase the swing factor above the maximum-stated level. Such exceptional circumstances can be triggered by (but not limited to) high market volatility, disruption of markets or slowdown of the economy caused by terrorist attack or war (or other hostilities), serious pandemic or a natural disaster (such as a hurricane or a super typhoon).

Additional details on the anti-dilution/swing pricing adjustments and actual swing factors can be found on www.robeco.com/riam.

To avoid doubt, shareholders holding shares in the same share class will be treated in an identical manner.

Pooling and co-management

For the purpose of efficient management and to reduce administrative costs and if the investment policies of the Sub-funds allow such, the Board of Directors may decide to co-manage some or all of the assets of certain Sub-funds with assets of other Luxembourg UCIs of the Robeco Group (co-managed units). In this case, the assets from different co-managed units will be jointly managed using the pooling technique. Assets that are co-managed will be referred to using the term 'pool'. Such pools will only be used for the purposes of internal management. They will not constitute distinct legal entities and will not be directly accessible to investors. Each co-managed unit will have its own assets allocated to it. During the reporting period no pooling or co-management took place.

Affiliated parties

The Directors of the Company have appointed the affiliated entity RIAM, responsible on a day-to-day basis, under supervision of the Directors of the Company, to provide administration, marketing, portfolio management and investment advisory services in respect of Fund. The Management Company may, from time to time, carry out its portfolio management activities through one or more of its European branches, which will in such case not be fully in charge of the day-to-day management of the relevant Fund. The Directors of the Company are also Directors of Robeco (LU) Funds III, Robeco All Strategies Fund and Robeco Institutional Solutions Funds. The Management Company has delegated the administration, registrar and transfer functions to J.P. Morgan S.E., Luxembourg Branch

The delegated portfolio managers, Boston Partners Global Investors Inc., Robeco Hong Kong Ltd, Robeco Schweiz AG, Robeco Singapore Private Ltd, Robeco Institutional Asset Management UK Limited and Gravis Capital Management Limited are affiliated entities. The delegated portfolio managers are charged with the day-to-day management of the assets and receive a fee for that service.

The Company is affiliated with the entities belonging to ORIX Corporation Europe N.V. The affiliation with ORIX Corporation Europe N.V. is the result of the possibility of having decisive control or a substantial influence on the Company's business policy. ORIX Corporation Europe N.V. is part of ORIX Corporation. The management structure of ORIX Corporation Europe N.V. is such that ORIX Corporation does not have any meaningful say in or influence on the Company's business policy. Besides services of other market parties, the Company may also utilize the services of one or more of these affiliated entities including transactions relating to securities, treasury, derivatives, securities lending, and subscriptions and redemptions of its own shares, as well as management activities. Transactions are executed at market rates.

Notes to the financial statements as at 31 December 2025 (continued)

1. General (continued)

Financial instruments

Risks

Transactions in financial instruments may lead the Sub-funds to be subject to the risks described below or to the Sub-funds transferring these risks to another party.

General investment risk

The value of the investments may fluctuate. Past performance is no guarantee of future results. The net asset value of the Sub-funds is affected by developments in the financial markets and may both rise and fall. Shareholders run the risk that their investments may end up being worth less than the amount invested or even worth nothing. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the net asset value per share. General investment risk can be broken down into market risk, concentration risk, currency risk and counterparty risk.

Market risk

The net asset value of the Sub-funds is sensitive to market movements. In addition, investors should be aware of the possibility that value of investments may vary as a result of changes in political, economic or market circumstances. Therefore, no assurance can be given that the Sub-fund's investment objective will be achieved. It cannot be guaranteed either that the value of a share in a Sub-fund will not fall below its value at the time of acquisition.

Concentration risk

Based on its investment policies, each Sub-fund may invest in financial instruments from issuing institutions that (mainly) operate within the same sector, region, or market. If this is the case, the concentration of Sub-fund's investment portfolio may cause events that have an effect on these issuing institutions to have a greater effect on the Sub-fund's assets than would occur with a less concentrated investment portfolio.

Currency risk

All or part of the securities portfolio of the Sub-funds may be invested in transferable securities, money market instruments, UCITS or other UCIs and other eligible financial instruments denominated in currencies other than the Base currency of the Sub-fund. As a result, fluctuations in the exchange rate may have both a negative and a positive effect on the investment result of the Sub-funds. As part of an active currency policy, exposure to currencies may be hedged but Investors should note that there is no guarantee that the exposure of the currency in which the Shares are invested can be fully or effectively hedged against the base currency of the relevant Sub-fund. Investors should also note that the implementation of an active currency policy may, in certain circumstances, substantially reduce the benefit to Shareholders in the relevant class of Shares (for instance, if the base currency depreciates against the currency of the instrument in which the relevant Sub-fund is invested) and could thereby result in a decrease in the value of their shareholding.

Inflation risk

As a result of inflation (reduction in value of money), the actual investment income of each Sub-fund may be eroded.

Counterparty risk

A counterparty of a Sub-fund may fail to fulfil its obligations towards that Sub-fund. In case of hedging transactions in classes of shares, the relevant Sub-fund carries the counterparty risk. This risk is limited as much as possible by taking every possible care in the selection of counterparties. Wherever it is customary in the market, the Sub-funds will demand and obtain collateral. The Sub-funds minimize this risk by trading exclusively with reputable counterparties with a minimum rating of A in the Standard & Poor's or other recognized credit rating agencies lists. The positions that each Sub-fund takes in terms of interest-rate swaps and credit default (index) swaps (where possible) are centrally cleared at a clearing house. This means that the Sub-fund has a single central counter party (CCP) for derivative instruments with which the required collateral (margin) is exchanged on a daily basis. To hedge the initial required collateral (initial margin) and for the variable required collateral (variation margin), the Sub-funds use cash.

Notes to the financial statements as at 31 December 2025 (continued)

1. General (continued)

Financial instruments (continued)

Risks (continued)

Counterparty risk (continued)

Risk of lending financial instruments

In the case of financial instrument lending transactions, the Company and its respective Sub-funds concerned run the risk that the borrower cannot comply with its obligation to return the financial instruments on the agreed date or furnish the requested collateral. The lending policy of the Company is designed to control these risks as much as possible.

All counterparties used in the securities lending process are pre-approved by Robeco. The approval process takes into account the entities credit rating (if available) and whether the counterparty is subject to prudential regulation. Any relevant incidents involving the entity are also taken into account.

The Fund only accepts collateral from OECD countries in the form of:

- Government bonds with a minimum credit rating of BBB;
- The bonds of supranational bodies with a minimum credit rating of BBB-;
- Stocks listed on the main indexes of stock markets in OECD countries; and to a limited extent in the form of
- Index trackers;
- Cash.

As of balance-sheet date, the Fund had received collateral ensuing from securities-lending transactions. More information can be found on page 141.

Liquidity risk

The actual buying and selling prices of financial instruments in which the Sub-funds invest partly depend upon the liquidity of the financial instruments in question. It is possible that a position taken on behalf of a Sub-fund cannot be quickly liquidated at a reasonable price due to a lack of liquidity in the market in terms of supply and demand. The Sub-funds minimize this risk by mainly investing in financial instruments that are tradable on a daily basis.

Sustainability risk

RIAM systematically incorporates sustainability factors, to the extent these present a material risk to a Sub-fund, into its investment and portfolio construction processes, alongside traditional financial risk factors. This is done through ESG scoring methodologies using proprietary sustainability research and external resources which are built into the portfolio construction process.

Processes and controls for sustainability risk integration are embedded in a designated Sustainability Risk Policy, which is maintained by the risk management function and governed by the Risk Management Committee (RMC). The Sustainability Risk Policy is built on three pillars. The environmental or social characteristics promoted by a Sub-fund or sustainable investment objective of a Sub-fund is used to identify and assess the relevant material sustainability risk topics. Based on these characteristics or investment objectives sustainability risk is monitored. Sensitivity and scenario analyses are conducted on a frequent basis to assess any material impact climate change risk may have on the portfolio of a Sub-fund.

Operational risk

The operational risk is the non-inherent risk remaining after determining the risks as detailed afore (general investment risk, counterparty risk, liquidity risk or risk of lending financial instruments). It mainly includes risks resulting from breakdowns in internal procedures, people and systems.

Insight into actual risks

The report of the Board of Directors, the Combined Statement of Net Assets, the Notes to the Financial Statements and the Schedule of Investments, which include currency classification of the investments, give an insight into the actual risks at the end of the reporting period.

Risk management

Managing risk is a part of the investment process as a whole and with the help of advanced systems, the risks outlined above are limited, measured and monitored on the basis of fixed risk measures.

Policy regarding the use of derivatives

Investing implies that positions are taken. As it is possible to use various instruments, including derivative instruments, to construct an identical position, the selection of derivatives is subordinate to the positioning of an investment portfolio. In the published information, attention is given primarily to the overall position, and secondarily to the nature and volume of the financial instruments employed.

Derivative instruments

The unrealised results of derivative instruments are reported in the Combined Statement of Net Assets. Commitments to derivatives are not included in the Combined Statement of Net Assets. They are, however, explained in the Schedule of Investments. The unrealised results presented in the Combined Statement of Net Assets are disclosed by contract in the Schedule of Investments.

The derivative instruments listed in the Notes are transacted through third party brokers. Those brokers hold/paid collateral as described on pages 138 to 140. The Company is exposed to counterparty risk in respect of all amounts including collateral due to it from such brokers.

2. Summary of significant accounting principles

General

Unless stated otherwise, the items shown in the financial statements are included at their nominal value and expressed in the reference currency of the Sub-fund. This annual report covers the reporting period from 1 January 2025 until 31 December 2025.

Preparation and presentation of financial statements

The financial statements are prepared on the basis of the last net asset value calculated during the year (31 December 2025 for all Sub-funds) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds. The going concern basis was applied for the preparation of the financial statements of the Fund and its Sub-funds, except Robeco Fashion Engagement (in liquidation) and Robeco US Green Bonds (in liquidation) which were liquidated on 4 March 2026.

Combined figures

The combined figures are expressed in Euro and are presented for information purpose only. The combined figures are the sum of the statements of each Sub-funds. The Combined Statement of Net Assets is presented in EUR at the exchange rates prevailing at the end of the reporting period, while the Combined Statement of Operations and Changes in Net Assets is presented in EUR at the average exchange rates during the year. Cross Sub-funds investments (where one Sub-fund invested within Sub-fund of the Company) are not eliminated from the combined statement.

Foreign currencies

Transactions in currencies other than the reference currency of the relevant Sub-fund are converted into the reference currency at the exchange rates prevailing at the time of the transaction. The market value of the investments, assets and liabilities expressed in currencies other than the reference currency of the Sub-fund are converted into the Sub-fund's reference currency at the exchange rates prevailing at the end of the reporting period. Any positive or negative exchange differences arising are accounted for in the Combined Statement of Operations and Changes in Net Assets. The table on page 202 shows the exchange rates as at 31 December 2025.

Valuation of investments

Transferable securities, money market instruments and financial derivative instruments listed on an official stock exchange listing

These instruments are valued at their last available market price. In the event that there should be several such markets, the instruments will be valued on the basis of the last available price of the main market for the relevant security or asset. Should the last available market price for a given transferable security, money market instrument or financial derivative instrument not truly reflect its fair market value, then that transferable security, money market instrument or financial derivative instrument is valued on the basis of the probable sales price which the Board of Directors deems prudent to assume. Fixed income securities not traded on such markets are generally valued at the last available price or yield equivalents obtained from one or more dealers or pricing services approved by the Board of Directors or any other price deemed appropriate by the Board of Directors. According to the valuation policy which is approved by the Fund Board, a fair value adjustment will be made to reflect the current market values for securities traded in markets with a different timezone (mainly Asia Pacific) where new market information surfaces after the close of the local market but before the calculation of the net asset value.

Notes to the financial statements as at 31 December 2025 (continued)

2. Summary of significant accounting principles (continued)

Valuation of investments (continued)

Transferable securities and/or money market instruments dealt in on another regulated market

These instruments are valued on the basis of their last available market price. Should the last available market price for a given transferable security and/or money market instrument not truly reflect its fair market value, then that transferable security and/or money market instrument is valued by the Board of Directors on the basis of the probable sales price which the Board of Directors deems prudent to assume.

Transferable securities and/or money market instruments not listed or dealt in on any stock exchange or on any regulated market

In the event that any assets are not listed or dealt in on any stock exchange or on any regulated market, or if the above valuation methods are inappropriate or misleading, with respect to assets listed or dealt in on any stock exchange, or on any regulated market as aforesaid, where the above valuation methods are inappropriate or misleading, the Board of Directors may adopt any other appropriate valuation principles for the assets of the Company.

Investment transactions and investment income

Securities are initially recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased. Results on sales of securities are determined on the basis of the average cost method (for future first-in-first-out method). Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/premiums on zero-coupon bonds are accreted as adjustments to interest income. Interest and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

Valuation of Russian Investments as at financial year-end:

As at 31 December 2025, the securities issued by Russian companies are valued at 'nil' in the schedules of investments of the respective Sub-funds exposed to such securities. This nil value may not reflect the intrinsic value of those companies but rather reflect the fact that those securities are not tradable as of 31 December 2025.

3. Open forward exchange transactions

Open forward exchange transactions are valued with market practice valuation models using forwards rates based on exchange and interest rates applicable at 31 December 2025. The unrealised results of these transactions have been recorded gross in the Combined Statement of Net Assets under the heading 'Unrealised gain/loss on forward currency exchange contracts' and changes in unrealised results are recorded in the Combined Statement of Operations and Changes in Net Assets under the heading 'Net change in unrealised appreciation/(depreciation) on forward currency exchange contracts'.

The contracts outstanding as at 31 December 2025 are disclosed in the Schedule of Investments. Information on the collateral received or paid on these positions is stated in the table on pages 138 to 140. The paid collateral is restricted cash and is included in the Combined Statement of Net Assets under the assets 'Cash at bank and at brokers'. The received collateral is included in the Combined Statement of Net Assets under the liabilities 'Due to brokers'.

4. Interest rate swaps

Interest rate swaps are valued with market practice valuation models using exchange and interest rates applicable at 31 December 2025. The unrealised gains/losses on interest rate swaps are recorded gross in the Combined Statement of Net Assets under the heading 'Swap contracts at fair value' and changes in unrealised results are recorded in the Combined Statement of Operations and Changes in Net Assets under the heading 'Net change in unrealised appreciation/(depreciation) on swaps contracts'. The contracts outstanding as at 31 December 2025 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on pages 138 to 140. The paid collateral is restricted cash and is included in the Combined Statement of Net Assets under the assets 'Cash at bank and at brokers'. The received collateral is included in the Combined Statement of Net Assets under the liabilities 'Due to brokers'.

5. Credit default swaps

Credit default swaps are valued at fair value under procedures approved by the Board of Directors. The valuation is based on market practice valuations models using observable market inputs. The unrealised gains/losses on credit default swaps are recorded gross in the Combined Statement of Net Assets under the heading 'Swap contracts at fair value' and changes in unrealised results are recorded in the Combined Statement of Operations and Changes in Net Assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 31 December 2025 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on pages 138 to 140. The paid collateral is restricted cash and is included in the Combined Statement of Net Assets under the assets 'Cash at bank and at brokers'. The received collateral is included in the Combined Statement of Net Assets under the liabilities 'Due to brokers'.

Notes to the financial statements as at 31 December 2025 (continued)

6. Financial futures contracts

Regulated futures contracts are valued at their exchange quoted settlement price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealised appreciation or depreciation. When the contract is closed, the Company records a realised gain or loss equal to difference between the value of the contract at the time it was opened and the value at the time it was closed. All margin deposits are included in the Combined Statement of Net Assets under the heading 'Cash at bank and at brokers'.

Changes in unrealised results and realised results during the year are both recorded in the Combined Statement of Operations and Changes in Net Assets. The contracts outstanding as at 31 December 2025 are disclosed in the Schedule of Investments.

7. Options contracts

Options contracts not traded on exchanges or on other Regulated Markets are valued at fair value under procedures approved by the Board of Directors. Options contracts traded on exchanges or on other Regulated Markets are valued at last available settlement prices of these contracts on exchanges and Regulated Markets on which the options contracts are traded. When the contract is closed, the Company records a realised gain or loss equal to difference between the value of the contract at the time it was opened and the value at the time it was closed. Changes in unrealised results and realised results during the year are both recorded in the Combined Statement of Operations and Changes in Net Assets. The contracts outstanding as at 31 December 2025 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on pages 138 to 140. The paid collateral is restricted cash and is included in the Combined Statement of Net Assets under the assets 'Cash at bank and at brokers'. The received collateral is included in the Combined Statement of Net Assets under the liabilities 'Due to brokers'.

8. Collateral

Several Sub-funds received or paid collateral to cover the unrealised results on derivative instruments. Collaterals are calculated and settled on a daily basis per counterparty. The collateral is primarily cash held at the broker in the name of the Sub-fund. The paid collateral is restricted cash and is included in the Combined Statement of Net Assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Combined Statement of Net Assets under the liabilities 'Due to brokers'. No cash collateral has been reinvested. The amounts per Sub-fund and counterparty are shown in the table below.

¹ The unrealised results on Interest Rate Swaps and Credit Default Swaps are settled daily via collateral payments/receipts between the fund and the Central Clearing Party (London Clearing House), which is placed between the fund and the counterparty.

In addition to the ‘Cash at bank and at brokers/ Due to brokers’ reflected in the Combined Statement of Net Assets, the Fund received or paid collaterals which is not reflected in the net asset value of the Fund neither in the Combined Statement of Net Assets. The amount and counterparty are shown in the table below.

9. Schedule of Investments

The Schedule of Investments of the Sub-funds are included at the end of this report.

Notes to the financial statements as at 31 December 2025 (continued)

10. Securities lending

J.P. Morgan SE, Luxembourg Branch is a lending agent for all Robeco Capital Growth Funds securities lending transactions. J.P. Morgan SE, Luxembourg Branch is authorized to retain a fee in an amount equal to (A) 25% of the income from securities-lending transactions for any loans which generate a return of 0.5% or less and (B) 10% of the income from securities-lending transactions for any loans which generate a return greater than 0.5% of the sum of (i) earnings derived from authorized investments (as adjusted for any rebate paid or received by J.P. Morgan SE, Luxembourg Branch) (ii) any fee, paid or payable by the borrower with respect to loans (including any loan fee but excluding any compensation payable by borrower under the Master Securities Lending Agreement "MSLA" in connection with a loan (net, however, of any other amount payable by a lender in connection with such loan).

Gains and losses on cash collateral investments shall not be taken into account in calculating earnings for the purpose of J.P. Morgan's fees. The following table shows the position of the collateralized securities lending transactions with first-class financial institutions as described in the prospectus at the end of the reporting period, as well as the income from securities lending over the reporting period for the Company and the income for J.P. Morgan SE, Luxembourg Branch. Income on securities-lending transactions is recorded under the heading 'Securities lending income' in the statement of operations and changes in net assets. Collateral received in the frame of the lending activity, primarily securities, is held in the name of the Fund on an escrow account with external agents. In exceptional cases, the collateral is received in cash, which is not subject to reinvestment. More information on collateral received can be found on pages 829 and further.

11. Taxes

In Luxembourg, the Company is not subject to taxation on its income, profits or gains. The Company is not subject to net wealth tax in Luxembourg. No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the Shares of the Company. The Company is subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on the net asset value of the share-classes at the end of the relevant quarter, calculated and paid quarterly. This rate is 0.01% per annum for institutional classes of shares such as class I, IB, IBH, IBHL, IBL, IBx, IBxH, IBxHL, IBxL, ICo, IE, IEH, IEL, IEx, IExH, IH, IHCo, IHHi, IHL, IL, IM, IML, IMB, IMBxH, IMH, IMHL, J, K, K1, K1E, K1EH, K1H, K2, K2E, K2EH, K2H, K3, K3E, K3EH, K3H, KE, KH, Y, YE, YEH, YH, Z, Z2, Z2H, ZB, ZBH, ZEH, ZH, ZHL, ZL, 0IEH, 0IH and 2IH shares. To the extent that the assets of the Sub-funds are invested in investment funds which are established in Luxembourg, no such tax is payable, provided that the relevant investment funds have been subject to this tax. The Sub-funds will receive income from their investments after deduction of applicable withholding taxes in the country of origin. There are no taxes regarding Luxembourg income, withholding, capital gains, estate or inheritance taxes that are payable by the Sub-funds.

Taxation of Chinese A shares:

Capital gains derived from the transfer of Chinese A shares on or after 17 November 2014 are (temporarily) exempt from the 10% capital withholding tax ('CWT').

Taxation Indian listed stocks

As of 23 July 2024, capital gains realized on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 20% Indian capital gains tax increased with surcharges. The disposal of Indian listed stocks after 12 months after purchase (long-term gains) is subject to a capital gains tax on long-term gains at a rate of 12,5% increased with surcharges. The capital gains taxes are accrued in the net asset value and included in the statement of net assets under the heading 'Other liabilities' and included in the statement of operations and changes in net assets under 'Net realized gain/(loss) on currency exchange' for the capital gain taxes linked to realized gains and under 'Net Change in unrealised appreciation/depreciation on: currency exchange' for the unrealised appreciation of investments during the year.

Notes to the financial statements as at 31 December 2025 (continued)

12. Management Company

The Board of Directors of the Company has appointed RIAM, as the Management Company to be responsible on a day-to-day basis for providing administration, marketing and investment management services in respect of the Sub-funds.

RIAM is incorporated under the laws of the Netherlands on 21 May 1974 and at that time called Rotrusco B.V. On 25 February 1997, the name was changed into RIAM. RIAM holds an AIFMD license as referred to in Section 2:65 Wft. In addition, RIAM is licensed as a manager of UCITS (2:69b Wft, the Dutch Financial Supervision Act). RIAM is moreover authorized to manage individual assets and give advice with respect to financial instruments. RIAM is subject to supervision by the Dutch Authority for the Financial Markets (Stichting Autoriteit Financiële Markten, “AFM”).

The Management Company has delegated the administration functions and registrar agent functions to J.P. Morgan SE, Luxembourg branch.

RIAM is part of ORIX Corporation Europe N.V. and also acts as the Management Company for other Luxembourg, Dutch and Irish domiciled funds.

13. Portfolio Manager

RIAM, an investment management company forming part of the Robeco Group in Rotterdam, the Netherlands, manages the assets of the Sub-funds on a day-to-day basis. The Portfolio Management Agreement between the Management Company and RIAM was concluded on 1 June 2019 for an undetermined period.

RIAM has appointed Boston Partners Global Investors Inc. as its Sub Delegated Portfolio Manager for the Sub-funds Robeco BP Global Premium Equities, Robeco BP US Premium Equities, Robeco BP US Large Cap Equities and Robeco BP US Select Opportunities Equities.

The Sub Delegated Portfolio Manager for the Sub-funds Robeco Asia-Pacific Equities, Robeco Chinese Equities, Robeco Indian Equities, Robeco Asian Stars Equities, Robeco Sustainable Asian Stars Equities, Robeco Chinese A-Share Equities and Robeco Transition Asian Equities is Robeco Hong Kong Ltd.

The Sub Delegated Portfolio Manager for the Sub-funds Robeco Global SDG Equities, Robeco Sustainable European Stars Equities, Robeco Global Multi-Thematic, Robeco Circular Economy, Robeco Smart Energy, Robeco Smart Materials, Robeco Smart Mobility, Robeco Healthy Living, Robeco Sustainable Water, Robeco Biodiversity Equities and Robeco Fashion Engagement (in liquidation) is Robeco Schweiz AG.

The Sub Delegated Portfolio Manager for Robeco Transition Asian Bonds is Robeco Singapore Private Ltd.

The Sub Delegated Portfolio Manager for Robeco Gravis Digital Infrastructure Income is Gravis Capital Management Limited.

The Sub Delegated Portfolio Manager for Robeco Emerging Markets Bonds and Robeco Emerging Markets Bonds Local Currency is Robeco Institutional Asset Management UK Limited.

Notes to the financial statements as at 31 December 2025 (continued)

14. Cross investment between Sub-funds

The Company is permitted to engage in cross investment between Sub-funds within the umbrella structure. In case there are management fees or service fees charged on the cross investments, these fees are returned to the investor Sub-fund. The following information pertains to the cross investment between Sub-funds within the Company as of 31 December 2025:

Investment	Sub-fund Currency	Market Value	% of net assets
Robeco QI Global Conservative Equities			
Robeco QI Chinese A-share Conservative Equities - Z EUR		6,259,509	1.37
	EUR	6,259,509	1.37
Robeco Chinese Equities			
Robeco Chinese A-share Equities - I EUR		1,342,086	1.00
	EUR	1,342,086	1.00
Robeco QI Emerging Markets Active Equities			
Robeco QI Chinese A-share Active Equities - Z EUR		189,901,579	3.89
	EUR	189,901,579	3.89
Robeco Global Credits			
Robeco Transition Emerging Credits - Z USD		50,275,262	2.11
Robeco Global Credits - Short Maturity - Z EUR		62,273,974	2.61
Robeco Global Investment Grade Credits - Class Z EUR		199,844,153	8.37
	EUR	312,393,389	13.09
Robeco High Yield Bonds			
Robeco Capital Growth Funds - Robeco QI Global Multi-Factor High Yield Class ZH EUR		3,730,398	0.08
Robeco QI Global Multi-Factor High Yield - Z EUR		22,648,887	0.48
Robeco European High Yield Bonds - ZH EUR		179,672,407	3.83
	EUR	206,051,692	4.39
Robeco Sustainable Diversified Allocation			
Robeco Sustainable Emerging Stars Equities - Z EUR		3,096,880	2.27
	EUR	3,096,880	2.27

If the Sub-funds invest in UCITS/UCI's that are not part of the Robeco Group, all costs at the level of these UCITS/UCI's (including the non-recoverable management fees, service fees, performance fees and/or transactions costs) shall be borne by the Sub-funds ultimately and therefore by the shareholders. The management fee and service fee paid in the Robeco funds is restituted to the Sub-funds and recorded in the Statement of operations and changes in net assets. During the year, the cross investments between the Sub-funds mainly occurred in share-class Z of Robeco Sub-fund which does not pay any management fees.

Notes to the financial statements as at 31 December 2025 (continued)

15. Management, service and performance fees

The different Sub-funds or classes of shares incur an annual management fee payable to the Management Company, which reflects expenses¹ related to the management of the Sub-funds. Furthermore the different Sub-funds or classes of shares incur an annual service fee payable to the Management Company reflecting expenses¹ such as the fees of the administration agent, the registrar agent, auditors and legal advisers, the costs of custody (including custody fees and bank charges), the costs of depositary services, the costs of preparing, printing and distributing all prospectuses, memorandums, reports and other necessary documents concerning the Company, any fees and expenses involved in the registration of the Company with any governmental agency and stock exchange, the costs of publishing prices and operational expenses, and the cost of holding shareholders' meetings.

¹ Additional expenses maybe charged to the Fund on an exceptional basis as disclosed in the prospectus.

The annual charges, both management fee and service fee, are expressed as a percentage of the net asset value. The charges, paid quarterly, are based on the net asset value of the relevant period and are reflected in the share price.

The share classes Z do not pay management fees. For some Sub-funds the Management Company is entitled to a performance fee, payable annually in arrears after the end of the reporting period. A performance fee for the relevant class of shares of the Sub-fund is only due at the end of the financial year when the relevant class of shares of the Sub-fund outperforms the relevant index or hurdle rate as indicated in the prospectus. Note that an outperformance of the relevant class of shares of the Sub-fund does not imply a positive return of the relevant class of Sub-fund's shares. A performance fee is also due when the relevant class of Sub-fund's shares has a negative return but an outperformance over the relevant index or hurdle rate as indicated in the prospectus. This outperformance must have taken place since inception of the relevant class of share of the Sub-fund's or since the time that a performance fee was due. In the event that payment of the performance fee is due, the basis for the performance fee calculation for the next financial year will start at 0 (reset). In the event that no payment of the performance fee is due no reset will take place. In addition, if a shareholder redeems or switches all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallize on that Valuation Day and will then become payable to the Management Company. The basis for the performance fee calculation will not reset on those valuation days at which performance fees crystallize following the redemption or switch of shares.

	Sub-fund currency	Performance fee	% of average net assets
Robeco Global Stars Equities			
I USD	EUR	737	0.00%
Robeco Emerging Stars Equities			
D EUR	EUR	1,794,842	1.54%

If the net asset value per share class exceeds EUR 1 billion the service fee will be reduced by 0.02% for the portion above 1 billion. If the net asset value per share class value exceeds EUR 5 billion, the service fee will be reduced by a further 0.02% for the portion above EUR 5 billion.

The service fee paid to the Management Company include Audit fees and Audit related fees. Audit fees, amounting to EUR 551,802 relate to the statutory audit of the Company's annual accounts performed by the Statutory Auditor. Audit related fees, amounting to EUR 39,900 relate to the regulatory reporting of the Company performed by the Statutory Auditor. No other services were charged by the Statutory Auditor to the Company.

*Maximum management fee which applies to all variations of this Share Class.

Notes to the financial statements as at 31 December 2025 (continued)

16. Depositary fees

The Depositary bank is remunerated in accordance with the agreement between J.P. Morgan SE, Luxembourg Branch (acting as the depositary) and the Company. The depositary fees are paid by RIAM out of the service fee.

17. Other operating expenses

The banking fees relating to the assets of the Sub-funds or expenses incurred thereof, such as proxy voting are paid by RIAM out of the service fee. The costs of establishing the Company have been paid entirely. If additional Sub-funds are created in the future, these Sub-funds will bear, in principle, their own formation expenses.

*Maximum management fee which applies to all variations of this Share Class.

Notes to the financial statements as at 31 December 2025 (continued)

18. Transaction costs

The Sub-funds and their classes of shares pay directly commissions, brokerage fees and taxes resulting from financial transactions. Transaction costs are included in the purchase/sale price of the securities.

19. Total Expense Ratio (TER)

The Total Expense Ratio ('TER') expresses the operational costs (e.g. management fee, service fee, performance fee, taxe d'abonnement and bank charges) charged to the Sub-funds as a percentage of the average assets entrusted, calculated on a daily basis, during the reporting period. The TER as shown below do not include transaction costs. The other costs concern mainly bank charges and taxe d'abonnement. TERs are annualized for periods of less than one year.

The total expense ratio (TER) was calculated based on the version currently applicable of the "Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes" of the Asset Management Association Switzerland (AMAS).

20. Broker commission

Robeco will ensure that the selection of counterparties for trade execution ("Brokers") will take place according to defined procedures and criteria to ensure best execution, taking into account execution capability and - where applicable - quality of investment research ("Research").

Under the influence of the MIFID II regulation RIAM decided to bear the research costs for most of the Sub-funds of the Fund from 2018. Only for the Sub-funds for which the American based asset manager Boston Partners is the Sub Delegated Portfolio Manager, the research costs are charged to the Fund. The below text on research costs is only applicable to the Sub-funds in the table below.

Brokers may charge execution only fees (excluding a fee for Research) and brokers may also charge a transaction fee consisting of two elements: a fee for the execution of an order and a fee for Research. Robeco will only pay a fee for Research if such Research is directly instrumental for improving the investment decision-making process within Robeco (via full service fees and via Commission Sharing Agreements ("CSA")). Having CSAs enables Robeco to unbundle Research and execution services to fulfill best execution criteria. By using CSAs, the Fund can obtain research services from those providers who do not have an execution business or do not fit the Fund's best execution criteria. It is Robeco's policy that the abovementioned arrangements are only allowed as long as the research services under consideration research, securities advice, etc.) are related to the enhancement of our investment process. Robeco makes use of:

1. Execution-only fees for quantitatively managed equity Sub-funds;
2. Full services fees for fundamentally managed equity Sub-funds; and
3. CSAs for fundamentally managed equity Sub-funds.

Research costs paid

Sub-fund	Sub-fund Currency	Total research costs paid
Robeco BP Global Premium Equities	EUR	1,034,902
Robeco BP US Premium Equities	USD	325,722
Robeco BP US Large Cap Equities	USD	409,762
Robeco BP US Select Opportunities Equities	USD	161,762

21. Portfolio Turnover Ratio (PTR)

This is the turnover ratio of the investments, against the average assets entrusted and this is a measure of the incurred transaction costs resulting from the investment portfolio policies pursued and the ensuing investment transactions. In the employed calculation method, the amount of turnover is determined by the sum of purchases and sales of investments, excluding derivative and liquidity instruments, less the sum of issuance and repurchase of own shares, divided by the daily average of the net assets. The portfolio turnover ratio is determined by expressing the amount of turnover as a percentage of the average assets entrusted. The following table shows the portfolio turnover ratios of the Sub-funds.

Notes to the financial statements as at 31 December 2025 (continued)

22. Commissions paid to affiliated parties

No transactions were effected with affiliated parties during the reporting period other than management activities.

23. Changes in the investment portfolio

The statement of changes in the investment portfolio during the period from 1 January 2025 to 31 December 2025 inclusive may be obtained free of charge at the offices of the Company, the Depositary, or any Nominee.

24. Retrocessions and trailer fees

Trailer fees for the marketing of the Sub-funds (Commission d'Encours) are paid to distributors and assets managers from the management fee. No retrocession has been granted during the reporting period.

25. Personnel costs

The Fund does not employ personnel.

26. SFDR disclosure

The information on the environmental and/or social characteristics for the Sub-fund(s) disclosing under article 8(1) of SFDR as required by the article 50 (2) of SFDR RTS and/or the information on sustainable investments for the Sub-fund(s) disclosing under article 9(1), 9(2) and 9(3) of SFDR as required by article 58 of the SFDR RTS are disclosed in the unaudited annex 'Sustainability disclosures'.

Notes to the financial statements as at 31 December 2025 (continued)

27. Russian Restricted cash

The Russian government and Central Bank of Russia have imposed restrictions on the use of rubles held by persons and entities in accounts with institutions outside of Russia, or by entities from certain “unfriendly” jurisdictions (as determined by the Russian government). As the Sub-Funds’ rubles accounts with J.P. Morgan SE, Luxembourg branch, are in Luxembourg, and the SICAV is domiciled in Luxembourg (listed as “unfriendly”), all ruble amounts must be held in restricted “C-type accounts”, and dividends paid by Russian investee companies must be paid to these accounts. Currently, the use of these funds is limited to the payment of Russian taxes, the acquisition of Russian sovereign bonds and the payment of commissions and fees to the bank servicing these accounts. These cash amounts are not reflected in the net asset value of the sub-funds neither in the Combined Statement of Net Assets.

As at 31 December 2025, the SICAV had a total cash amount of EUR 83,500,740.32, (31 December 2024: EUR 46,221,805.66) held in the restricted “C-type accounts” with the following split per sub-funds:

Sub-fund	Cash held in restricted “C-type accounts	% of NAV
Robeco QI Global Conservative Equities	EUR: 2,872,600.34	0.63
Robeco Emerging Stars Equities	EUR: 28,050,901.40	0.92

Notes to the financial statements as at 31 December 2025 (continued)

28. Information for Residents of the Hong Kong SAR

Connected parties for the funds registered in Hong Kong (continued)

The following are related parties. Details of these parties can be found on page 4.

- The members of the Board of Directors
- The Management Company (also Portfolio Manager)
- The depositary
- The administrator

All transactions entered into during the year between the Authorized funds and the Management Company, the Investment Advisers and the Directors of the Company, the Custodian and the Depositary and their respective Connected Persons including JP Morgan as securities lending agent were carried out at arm's length in the ordinary course of business and on normal commercial terms, except rebates that may be paid by the Management Company and a specific distributor to Robeco employees.

The members of the board of directors were engaged in the following transactions and held the following cumulative interest in the shares of the funds registered in Hong Kong.

Fund	Buy Amount in EUR	Sell Amount in EUR	Total Amount of Holdings in EUR	Dividend Received in EUR
Robeco BP Global Premium Equities	535	500	5,516.18	53.76
Robeco BP US Premium Equities	-	-	-	-
Robeco Emerging Stars Equities	-	-	-	-
Robeco Global Consumer Trends	327	2.37	21,502.39	-
Robeco Global Stars Equities	-	-	-	-
Robeco Indian Equities	-	-	-	-
Robeco QI Dynamic High Yield	-	-	-	-
Robeco High Yield Bonds	-	-	-	-
Robeco Credit Income	119.66	-	2,880.62	-

Management and service fees paid to the Management Company are disclosed in the Combined Statement of Operations and Changes in Net Assets.

Soft Commission Arrangements

Pursuant to the requirements of the Hong Kong Securities and Futures Commission regulations, the following statement is made:

Soft commission arrangements have been undertaken in respect of the Company. Services which are paid for through or by softcommission were in majority limited to the following areas:

- a) Research, analysis or price information including computer or other information facilities;
- b) Portfolio valuations; or
- c) Performance measurement.

Notes to the financial statements as at 31 December 2025 (continued)

The VaR is calculated on a daily basis, in accordance with UCITS regulation (99% confidence interval).

Other data (unaudited) (continued)

Remuneration policy and remuneration paid

The Fund itself does not employ any personnel and is managed by RIAM. The remuneration for persons working for RIAM comes out of the management fee.

Remuneration policy

RIAM's remuneration policy, which applies to all staff working under its responsibility, complies with the applicable requirements laid down in the European framework documents of the UCITS Directive and the ESMA guidelines for a responsible remuneration policy under the UCITS Directive.

The remuneration policy of RIAM can be obtained free of charge at the offices of the Company.

This remuneration policy applies to all staff of RIAM, including individuals who may have a material impact on the risk profile of the Fund. These persons are designated to be 'Identified Staff'.

Responsibility for and application of the policy

RIAM's Remuneration Policy is determined, applied and annually reviewed by and on behalf of RIAM with the approval of its shareholder, the (Board of) Robeco Holding B.V. Reviews of the policy need approval from the Supervisory Boards of RIAM and of Robeco Holding B.V. (upon advice of the Nomination and Remuneration Committee). In the application and evaluation of the remuneration policy, RIAM occasionally makes use of the services of various external advisers.

Remuneration in 2025

The total remuneration granted for RIAM over the performance year 2025 is shown in the table below:

Total remuneration RIAM in EUR x 1		
Staff category	Fixed pay for 2025	Variable pay for 2025
Management Board of RIAM (3 members)	2,176,962	3,400,000
Identified Staff (53) (ex Board)	16,881,810	10,154,848
Other employees (747 employees)	78,153,722	23,782,960

Of the total amounts granted in remuneration in 2025 to the Board Identified Staff and Other Employees, the following amounts are attributable to the Fund:

Remuneration attributed to the Fund in EUR x 1		
Staff category	Fixed pay for 2025	Variable pay for 2025
Management Board of RIAM (3 members)	784,693	1,225,542
Identified Staff (53) (ex Board)	6,085,106	3,660,350
Other employees (747 employees)	28,170,776	8,572,649

The total of the fixed and variable remuneration attributable to the Fund is EUR 48,499,116. Imputation occurs according to the following key:

$$\text{Total remuneration (fixed and variable) x } \frac{\text{Total Fund assets}}{\text{Total assets under management (RIAM)}}$$

As mentioned above the remuneration, which comes out of the management fee, is paid by RIAM and is therefore not charged to the Fund separately.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Independent directors have been paid EUR 151,216 for the year ended 31 December 2025. No variable remuneration is paid to the independent directors. The other directors have agreed to waive their remuneration.

Other data (unaudited) (continued)

Additional information Securities Financing Transaction (continued)

Securities Financing Transactions

The fund engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions (SFTs) include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) and/or Total Return Swaps. In accordance with Article 13 of the Regulation, the funds involvement in and exposures related to SFTs and Total Return Swaps for the reporting date are detailed below.

Securities Lending

Global Data

Amount of securities on loan

The total value of securities on loan as a proportion of the Sub-Funds' total lendable assets as at the reporting date is detailed below. Total lendable assets represent the aggregate value of asset types forming part of the Sub-Funds' securities lending programme.

Maturity tenor of securities lending transactions

All securities on loan can be recalled at any point. The Fund's securities lending transactions have open maturity.

Settlement and clearing

The Company's securities lending transactions, including related collateral, are settled and cleared on a tri-party basis.

Re-use of collateral

Non cash collateral, received in a securities lending transaction may not be sold, re-invested or pledged. Cash collateral received from such transactions is re-used in a reverse repurchase transaction.

Securities Lending (continued)

Safekeeping of collateral

Collateral received

J.P. Morgan SE, Luxembourg Branch as securities lending agent of the Funds, is responsible for the safekeeping of the collateral received in respect of securities lending transactions as at the reporting date. The Custodian J.P. Morgan SE, Luxembourg Branch is ultimately liable for any loss of instruments held in custody or by a third party to whom custody had been delegated (the sub-custody).

Collateral granted

No collateral is granted by the Company as part of their securities lending activities.

Return and cost

The total income earned from securities lending transactions is split between the Fund and the securities lending agent. Details of this split are disclosed in notes to the financial statements on pages 154 to 156. Income earned during the year by the Funds or Sub-funds from securities lending transactions is disclosed in the Combined Statement of Operations and Changes in Net Assets from pages 71 to 97.
