Prospectus amendment

The boards of directors of the Companies, hereby announce that the prospectuses of the Companies will be amended effective 17 November 2023. The main changes are as follows:

- Several share classes traded on Euronext Amsterdam (Euronext Fund Services segment) will no longer be traded via Euronext Amsterdam from 20 November 2023.
- Various names of share classes have been changed to better align with the investment strategy.
- Changes in information related to the sustainability profile of the Companies as required by the Sustainable Finance Disclosure Regulation (“SFDR”). This is particularly reflected in:
 - Obligations regarding minimum sustainable investments;
 - Clarification regarding Companies that do not invest in fossil gas and/or nuclear energy-related activities that comply with the EU Taxonomy.
- The restriction on not directly investing in options and swaptions is lifted for the majority of the Companies. Simultaneously, textual changes have been made to further specify the use of certain derivative instruments.
- In cases where benchmarks are used for asset allocation or comparative purposes, this has been further clarified.
- Clarification regarding the publication of Net Asset Value (NAV) and trading on the last working day of the year.
- The use of the Qualified Foreign Investor (“QFI”) Channel has been updated. If the case arises, this channel will no longer be used, and instead, the Stock Connect program will be used for investments in Chinese A-shares in the future.

The above-mentioned amendments do not result in a reduction of rights for shareholders and are subject to approval by the Dutch Authority for the Financial Markets (Autoriteit Financiële Markten).
