General Information (continued)

Subscriptions and publications

No subscription can be accepted on the basis of financial reports such as this report. Subscriptions may only be accepted on the basis of the current prospectus, supplemented by the Company's latest annual report, and in the event that the Company's annual report has been published more than eight months previously, its latest semi-annual report. Financial reports, the prospectus and Key Information Document are available in through the website www.robeco.com and may be obtained free of charge at the Company's registered office.

Representative and paying agent in Switzerland

ACOLIN Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zürich, is the fund's representative in Switzerland. Copies of the Key Information Document and prospectus, articles of incorporation, (semi) annual reports and a list of all purchases and sales in the investment portfolio during the reporting period are available from the above address free of charge. UBS Switzerland A.G., Bahnhofstrasse 45, CH-8001 Zurich (Postal address Badenerstrasse 574, Postfach, CH-8098 Zürich) is the Company's paying agent in Switzerland.

Information service in Germany

Copies of the articles of incorporation, Key Information Document and prospectus and the annual and semi-annual reports may be obtained free of charge from the offices of the information service in Germany: Robeco Deutschland, Zweigniederlassung der Robeco Institutional Asset Management B.V., Taunusanlage 17, D-60325 Frankfurt am Main. The prices at which shares are issued and repurchased are published on www.robeco.de. A list of all purchases and sales in the Company's investment portfolio during the reporting period is available at the paying agent/information service in Germany free of charge.

Robeco

Where reference is made to 'Robeco', it should be read Robeco Institutional Asset Management B.V. including the activities of the other entities which are in the scope of Robeco's management.

Report of the Board of Directors

General

Website

An information update on the fund's investment policies, returns and investment portfolio can be found on www.robeco.com/riam.

Code of conduct

The Board of Directors adheres to the 11 principles of the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg investment funds and considers the Fund to be in compliance with the principles in all material respects.

Report of the investment manager

General market review

The first half of 2023 saw a continued late cycle expansion in economic activity in the US, UK and Japan, while the Euro area entered a technical recession, led by Germany. Leading macro-indicators like the inverted yield curve and producer confidence surveys in the manufacturing sector had been flagging a looming slowdown phase of the business cycle in the G7 economies before the start of 2023. Yet year to date, economic growth in developed economies proved more resilient compared to prior consensus expectations, sustained by a continued expansion in global services activity, notably healthcare and air transportation. Especially Japan enjoyed a strong first half with the July leading Tankan indicator for large enterprises in the services sector indicating further expansion. Also, the European continent weathered the winter better than expected despite being largely cut-off from Russian gas resulting in elevated energy prices. Overall, rising geopolitical tensions in an increasingly multipolar world have elevated economic policy uncertainty and macro-economic volatility. The tightening cycle in developed economies is maturing with policy rates up by 4% since early 2022. The failure and rescue in March 2023 of three US small to mid-sized banks showed that the ongoing central bank monetary tightening cycle has started to bite. Yet, G7 labor markets remain tight, allowing a pass-through of past inflation into higher wages. Western economies still struggle with sticky core inflation of about 5%, with central banks signalling further policy tightening.

China's economic growth performance proved lacklustre with persistent housing market weakness undermining consumer sentiment. China is experiencing a different macro cycle compared to G7 members as Consumer Price Index (CPI) inflation fell to 0.0% (year-over-year) in June. While China has eased monetary policy, leading to a stronger credit impulse, the effectiveness of additional stimulus so far has been below the historical track record.

Report of the Board of Directors (continued)

Performance analysis

Robeco QI Long/Short Dynamic Duration

Over the reporting period, Robeco QI Long/Short Dynamic Duration generated a return of 2.5% (gross of fees in EUR), against a return of 1.3% for its reference index, the ICE BofA ESTR Overnight Rate Index (in EUR).

The sub-fund generated most of the outperformance with short duration positions in US and German bond futures in February, April and June. These positions were closed temporarily after the banking turmoil erupted in March and again when it resurfaced in late April. As the fund was still positioned for higher yields when risk aversion quickly spread in March, part of the earlier outperformance was lost.

The quantitative model driving the active duration positioning of the fund signalled these rising yields based on the monetary policy, valuation, economic growth, trend and season variables. The model was more positive for Japanese government bonds mainly due to the monetary policy, valuation and growth variables. Long duration positions in Japan also contributed to the outperformance, as did the US long position in the first weeks of the year.

Robeco High Yield Bonds Feeder Fund – zero duration

Over the reporting period, Robeco High Yield Bonds Feeder Fund – zero duration (the "Feeder Fund") generated a return of 4.3% (gross of fees hedged into EUR). This positive return was largely driven by a decline of credit spreads, as the interest rate sensitivity of the fund is managed close to zero. This feeder fund is invested for around 94% in its master fund, Robeco High Yield Bonds, a subfund of Robeco Capital Growth Funds (the "Master Fund"), with an additional overlay of interest rate swaps to hedge the interest rate risk. It also uses credit derivatives to manage the credit beta in line with its master fund.

Over the reporting period, the master fund, Robeco High Yield Bonds, generated a return of 3.4% (gross of fees hedged into EUR), against a return of 4.2% for its reference index, the Bloomberg US Corp. HY & Pan Eur. HY. ex Fin. 2.5% Issuer Cap (hedged into EUR). Central banks in Europe and the US continued to tighten monetary policy in their fight against inflation. With economic data generally surprising to the upside the tone of central banks remained firmly hawkish. The negative sentiment on rates markets, short-end government bond yields in the US and Germany moved up around 50bps, did not spill over to High Yield. Recession fears abated and this helped propel high yield markets higher. Some lower rated credits that had underperformed strongly in 2022 recovered in the reporting period. The cautious positioning of the sub-fund resulted in some underperformance of the sub-fund versus its benchmark. Its long position in the financial sector negatively contributed to the performance in March as problems in US regional banks occurred, but the sector recovered nicely in the second quarter. With respect to sustainable investing, the sub-fund has integrated ESG factors into the investment process. The prime goal of integrating ESG factors into the analysis is to strengthen the ability to assess the downside risk of the credit investments.

This Sub-fund is a Feeder Fund of Robeco High Yield Bonds, a Sub-fund of Robeco Capital Growth Funds. The Feeder Fund invests at least 85 % of its Net Asset Value in units of the Z2H share class of the Master Fund.

The Sub-fund invests up to a maximum of 15% of its assets in derivatives to target a duration of 0 year. In normal circumstances it is the intention to manage the duration within a bandwidth of -1 and 1 year.

The duration overlay will lead to a difference in duration between the Feeder Fund and the Master Fund and therefore to intended differences in the performance between the Feeder Fund and the Master Fund.

Strategy Robeco High Yield Bonds

The Master Fund invests at least two-thirds of its total assets in bonds, asset-backed securities and similar fixed income securities with a rating of BBB+ or equivalent or lower by at least one of the recognized rating agencies, or with no rating. As at 30 June 2023, Robeco High Yield Bonds Feeder Fund - zero duration owns 0.6% of Robeco High Yield Bonds.

Robeco Financial Institutions Bonds Feeder Fund – zero duration

Over the reporting period, Robeco Financial Institutions Bonds Feeder Fund – zero duration (the "Feeder Fund") generated a return of 2.2% (gross of fees hedged into EUR). The positive return was largely driven by a decline of credit spreads, as the interest rate sensitivity of the fund is managed close to zero. This feeder fund is invested for around 94% in its master fund, Robeco Financial Institutions Bonds, a subfund of Robeco Capital Growth Funds (the "Master Fund"), with an additional overlay of interest rate swaps to hedge the interest rate risk.

Over the reporting period, the master fund, Robeco Financial Institutions Bonds, generated a return of 2.8% (gross of fees in EUR), against a return of 2.4% for its reference index, the Bloomberg Euro-Aggregate: Corp. Fin. Subordinated 2% Issuer Cap (in EUR). Spread performance driven by the high carry of subordinated debt explained most of the positive index return. The sub-fund outperformed its index, mainly driven by the top-down beta positioning. The sub-fund started the year with a fairly cautious positioning, but following the spread widening in March the beta of the fund was increased to a larger overweight positioning. Adding to the, off-benchmark, position in cocos helped to increase the portfolio beta after the widening in March, on a risk-adjusted basis cocos lagged the rest of the market though. This means that the coco exposure contributed negatively to issuer selection. On the other hand, the underweight position in real estate hybrids contributed positively. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers. The sub-fund also invests in subordinated green, social and sustainability bonds, the exposure in the portfolio is circa 7.2%.

Report of the Board of Directors (continued)

Performance analysis (continued)

Robeco Financial Institutions Bonds Feeder Fund – zero duration (continued)

This Sub-fund is a Feeder Fund of Robeco Financial Institutions Bonds, a Sub-fund of Robeco Capital Growth Funds. The Feeder Fund invests at least 85 % of its Net Asset Value in units of the Z2H share class of the Master Fund.

The Sub-fund invests up to a maximum of 15% of its assets in derivatives to target a duration of 0 year. In normal circumstances it is the intention to manage the duration within a bandwidth of -1 and 1 year.

The duration overlay will lead to a difference in duration between the Feeder Fund and the Master Fund and therefore to intended differences in the performance between the Feeder Fund and the Master Fund

Strategy Robeco Financial Institutions Bonds

The Master Fund invests primarily (at least 70% of its total assets) in subordinated non-government bonds and similar non-government fixed income securities (contingent convertible bonds (also "coco" bonds) included) with a minimal rating of "BBB-" or equivalent by at least one of the recognized rating agencies, and which are issued by financial institutions, denominated in the EURO currency. The sub fund may continue to hold such non-government bonds and similar non-government fixed income securities even if they are subsequently downgraded. As at 30 June 2023, Robeco Financial Institutions Bonds Feeder Fund – zero duration owns 0.05% of Robeco Financial Institutions Bonds.

Robeco Global Credits Feeder Fund – zero duration

Over the reporting period, Robeco Global Credits Feeder Fund – zero duration (the "Feeder Fund") generated a return of 4.0% (gross of fees hedged into GBP). This positive return was largely driven by a decline of credit spreads, as the interest rate sensitivity of the fund is managed close to zero. This feeder fund is invested for around 94% in its master fund, Robeco Global Credits, a subfund of Robeco Capital Growth Funds (the "Master Fund"), with an additional overlay of interest rate swaps to hedge the interest rate risk. It also uses credit derivatives to manage the credit beta in line with its master fund. Over the reporting period, the master fund, Robeco Global Credits, generated a return of 2.5% (gross of fees hedged into EUR), against a return of 1.8% for its reference index, the Bloomberg Global Aggregate - Corporates (hedged into EUR). The total return of the portfolio was for the largest part driven by the underlying government bond yield movement. Government bond yields moved higher in Europe while yields on longer dated US Treasuries remained stable. European spreads remained relatively stable while US spreads moved lower in the first 6 months. The sub-fund's top-down positioning added to performance as the sub-fund started the year with a beta above 1, taking profits in February. The sub-fund added risk again in March after the widening caused by the defaults of 3 US regional banks and Credit Suisse in Europe. Issuer selection had a positive contribution to performance, with key contributors being Carnival Cruises, Cellnex and ZF Friedrichshafen. ESG factors are taken into account when assessing the fundamental credit quality of individual issuers.

This Sub-fund is a Feeder Fund of Robeco Global Credits, a Sub-fund of Robeco Capital Growth Funds. The Feeder Fund invests at least 85 % of its Net Asset Value in units of the Z2H share class of the Master Fund.

The Sub-fund invests up to a maximum of 15% of its assets in derivatives to target a duration of 0 year. In normal circumstances it is the intention to manage the duration within a bandwidth of -1 and 1 year.

The duration overlay will lead to a difference in duration between the Feeder Fund and the Master Fund and therefore to intended differences in the performance between the Feeder Fund and the Master Fund.

Strategy Robeco Global Credits

The Master Fund invests at least two-thirds of its total assets in non-government bonds (which may include coco bonds and similar non-government fixed income securities and asset backed securities from all around the world. The sub-fund will not invest into assets with a rating lower than "B-" by at least one of the recognized rating agencies. The fund strives for economic results, while at the same time taking into account environmental, sustainable and social objectives. In the assessment, areas such as a company's corporate strategy, corporate governance, transparency, as well as the product and service range that a company offers are taken into account. As at 30 June 2023, Robeco Financial Global Credits Feeder Fund – zero duration owns 17.7% of Robeco Global Credits.

Report of the Board of Directors (continued)

Sustainable investing

All Robeco's investment activities comply with the Principles for Responsible Investing (PRI). Responsibility for implementing Sustainable investing lies with Robeco's CIO, who has a seat on Robeco's Executive Committee.

Fulfilling the responsibilities in the field of stewardship forms an integral part of Robeco's approach to Sustainable investing. Robeco publishes its own stewardship policy on the website. This policy describes how Robeco deals with possible conflicts of interest, how the companies in which the sub-funds invest are monitored, how the activities in the field of engagement and voting are conducted, and how the stewardship activities are reported.

Robeco has research available from leading sustainability experts, including own proprietary research from the sustainable investing research team. This dedicated Sustainable Investing research team works together very closely with the investment teams to provide them with in-depth sustainability information. The investment analysis focuses on the most material ESG factors and the connection with the financial performance of a company. Robeco can then focus on the most relevant information in performing the investment-analysis and can reach enhanced investment decisions.

To help customers contribute to their sustainable investment objectives, Robeco has developed a methodology that analyses the contribution of investee companies to the Sustainable Development Goals (SDGs) and has developed SDG investment solutions. Furthermore, Robeco contributes to the SDGs by integrating ESG factors in its decision-making process for investments and encourages companies to act in support of these goals by means of a constructive dialogue.

Robeco's climate change policy is focused on integrating climate issues in investments when financially material and engaging with companies. Furthermore Climate risks for the funds are assessed and monitored by Robeco's financial risk management department.

Robeco pursues an exclusion policy for companies that are involved in the production of or trade in controversial weapons such as cluster munitions and anti-personnel mines, for tobacco companies and for companies that seriously and habitually violate either the United Nations Global Compact (UNGC) or the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises. Robeco applies strict criteria for this last category and if a dialogue fails, the company can be excluded. Robeco publishes its exclusion policy and the list of exclusions on its website.

All sub-funds of Robeco (LU) Funds III are classified as Article 8 under the SFDR. More information is available in the precontractual and periodical SFDR disclosures of the fund on our website.

Luxembourg, 31 August 2023

The Board of Directors

Past performance is no indication of current or future performance. These performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

Notes to the financial statements as at 30 June 2023

1. General

Robeco (LU) Funds III ('the Company') was incorporated on 2 June 1992 for an undetermined period of time as an open-ended investment company based in Luxembourg, issuing and redeeming its shares on a daily basis at prices at net asset value per share. The Company reserves the right to refuse any subscription request at any time. Its Articles of Incorporation were published in the 'Mémorial, Recueil des Sociétés et Associations' of the Grand Duchy of Luxembourg (the 'Mémorial') on 11 July 1992. The Articles of Incorporation were last amended effective as per 1 January 2022. The Company is a 'Société d'Investissement à Capital Variable' (Investment Company with variable capital) pursuant to the law of 10 August 1915, as amended, on commercial companies and to part I of the modified law of 17 December 2010 on undertakings for collective investment of the Grand Duchy of Luxembourg.

The Company takes the form of an umbrella fund, i.e. it can be made up of several sub-funds each representing an investment portfolio and other assets and liabilities corresponding to a different investment policy. Each sub-fund is therefore represented by a different type of share with one or more classes of shares. The Board of Directors has the authority to issue different classes of shares within each of the sub-funds. Details of the characteristics of such classes of shares offered by the Company will be determined by the Board of Directors. The Directors of the Company may at any time decide upon the issue of Class A, AH, D, D2, D2H, DH, F, FH, I, IH, M, M2, M2H, MH, S, SH, Z and ZH shares (accumulating) and Class A1, A1H, B, BH, Bx, BxH, C, CH, Cx, CxH, D3, D3H, E, EH, G, GH, IB, IBH, IBx, IBxH, IE, IEH, IEx, IExH, M3, M3H, MB, ZB, ZBH, ZE and ZEH shares (distributing) to investors in one or several sub-funds. The reference currency of the classes of shares may be the Euro (EUR), the US Dollar (USD), the British Pound (GBP), the Swiss Franc (CHF), the Japanese Yen (JPY), the Canadian Dollar (CAD), the Mexican Peso (MXN), the Hong Kong Dollar (HKD), the Singapore Dollar (SGD), the Swedish Crown (SEK), the Norwegian Crown (NOK), the Danish Crown (DKK), the Chinese Yuan (CNH), the South- African Rand (ZAR) or the Australian Dollar (AUD).

Legal entity

The Company as a whole constitutes a single legal entity but the assets of any one sub-fund will only be available to satisfy the rights of investors in relation to that sub-fund and the rights of creditors whose claims have arisen in connection with the creation, operation or liquidation of the sub-fund. For the purpose of the relations as between shareholders, each sub-fund is deemed to be a separate entity.

Dividend policy

The general policy regarding the appropriation of net income and capital gains is as follows:

Class D, D2, F, M, M2 and I shares

Income is reinvested and added to the relevant sub-funds and contributes to a further increase in value of the total net assets.

Class B, Bx, D3, E and G shares

After the end of the reporting period, the Company can recommend what distribution shall be made from the net investment income and net capital gains attributable to the Class B, Bx, D3, E and G shares. The Annual General Meeting of Shareholders will determine the dividend payment. The Board of Directors of the Company may decide to distribute interim dividends, in accordance with Luxembourg law.

General remarks

As provided by the 2010 law, the Company may decide to distribute dividends with no other limit than the obligation that any such dividend distribution does not reduce the net asset value of the Company below the legal minimum amount. Similarly, the Company may distribute interim dividends and may decide to pay dividends in shares. If dividends are distributed, payments of cash dividends to registered shareholders will be made in the currency of the relevant share class to such shareholders at the addresses they have given to the Registrar Agent. Dividend announcements (including names of paying agents) and all other financial notices concerning Robeco (LU) Funds III shall be published on www.robeco.com/luxembourg and published in those newspapers as the Board of Directors shall determine from time to time. Dividends not collected within five years will lapse and accrue for the benefit of the Company in accordance with Luxembourg law.

Open-ended fund

Robeco (LU) Funds III is an open-ended investment Company, meaning that, barring exceptional circumstances, Robeco (LU) Funds III issues and purchases its shares on a daily basis at prices at net asset value per share. The Company reserves the right to refuse any subscription request at any time.

Swing pricing

Shares are issued and redeemed on the basis of the net asset value per share. However, the actual costs of purchasing or selling assets and investments for a sub-fund may deviate from the latest available prices, as appropriate, in calculating the net asset value per share. This deviation can be caused by duties and charges and spread from buying and selling prices of the underlying investments ('spreads'). These costs have an adverse effect on the value of a sub-fund and its underlying share classes and are known as dilution. To mitigate the effects of dilution, the company may, at its discretion, make a dilution adjustment to the net asset value per share on any valuation day. The company will retain the discretion in relation to the circumstances under which to make such a dilution adjustment. At the end of the reporting period, no swing adjustments were made.

Notes to the financial statements as at 30 June 2023 (continued)

1. General (continued)

Swing pricing (continued)

The dilution adjustment will involve adding to, when the sub-fund is in a net subscription position, and deducting from, when the subfund is in a net redemption position, the Net Asset Value per Share such figure as the Company considers representing an appropriate figure to meet the Cash Flow Costs. The resultant amount will be the Price rounded to such number of decimal places as the Company deems appropriate. The dilution adjustments may vary depending on the order type (net subscription or net redemption), on the underlying asset classes for any sub-fund or on the market conditions. The dilution adjustments as well as the dealing levels from which they become applicable may be amended from time to time depending on market conditions or any other situation where the Company is of the opinion that the interests of the Shareholders require such amendment(s).

For any given valuation day, the swing factor adjustment is limited to a maximum of 2% of what the Net Asset Value would otherwise be. In exceptional circumstances, the Board of Directors may, in the best interest of Shareholders, decide to temporarily increase the swing factor above the maximum stated level. Such exceptional circumstances can be triggered by (but not limited to) high market volatility, disruption of markets or slowdown of the economy caused by terrorist attack or war (or other hostilities), serious pandemic or a natural disaster (such as a hurricane or a super typhoon).

Additional details on the anti-dilution/swing pricing adjustments and actual swing factors can be found on www.robeco.com/riam.

For the avoidance of doubt, shareholders placed in the same situation will be treated in an identical manner.

Where a dilution adjustment is made, it will increase the Price where the Sub-fund is in a net subscription position and decrease the Price where the Sub-fund is in a net redemption position. The Price of each Class in the Sub-fund will be calculated separately but any dilution adjustment will in percentage terms affect the Price of each Class in an identical manner. The dilution adjustment is made on the capital activity at the level of the Sub-fund and does not address the specific circumstances of each individual investor transaction.

Affiliated parties

The Directors of the Company have appointed the affiliated entity Robeco Institutional Asset Management B.V. ("RIAM") as the management company of the Company to be responsible on a day-to-day basis, under supervision of the Directors of the Company, for providing administration, marketing, portfolio management and investment advisory services in respect of all Sub-funds. The Management Company may, from time to time, carry out its portfolio management activities through one or more of its European branches, which will in such case not be fully in charge of the day-to-day management of the relevant Sub-fund. The Management Company has delegated the administration, registrar and transfer functions to J.P. Morgan S.E., Luxembourg Branch. The different sub-funds and share-classes will incur an annual management fee which reflects all expenses related to the management of the Company which is payable to the Management Company. The Directors of the Company are also Directors of Robeco Capital Growth Funds, Robeco Global Total Return Bond Fund, Robeco QI Global Dynamic Duration, Robeco All Strategies Funds, Robeco Institutional Solutions Funds, RSSLF GP S.à.r.l., Robeco Sustainable Senior Loan Feeder Fund SCA SICAV-RAIF and Robeco Sustainable Senior Loan Fund SCSp.

Robeco (LU) Funds III is affiliated to the entities belonging to ORIX Corporation Europe N.V. The affiliation with ORIX Corporation Europe N.V. is the result of the possibility of having decisive control or a substantial influence on the Company's business policy. ORIX Corporation Europe N.V. is part of ORIX Corporation. The management structure of ORIX Corporation Europe N.V. is such that ORIX Corporation does not have any meaningful say in or influence on the Company's business policy. Besides services of other market parties, Robeco (LU) Funds III may also utilize the services of one or more of these affiliated entities including transactions relating to securities, treasury, derivatives, securities lending, and subscriptions and redemptions of its own shares, as well as management activities. Transactions are executed at market rates.

Notes to the financial statements as at 30 June 2023 (continued)

1. General (continued)

Financial instruments

Risks

Transactions in financial instruments may lead the sub-funds to be subject to the risks described below or to the sub-funds transferring these risks to another party.

General investment risk

The value of the investments may fluctuate. Past performance is no guarantee of future results. The net asset value of the sub-funds is affected by developments in the financial markets and may both rise and fall. Shareholders run the risk that their investments may end up being worth less than the amount invested or even worth nothing. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the NAV per share. General investment risk can be broken down into market risk, concentration risk and currency risk.

Market risk

The net asset value of the sub-funds is sensitive to market movements. In addition, investors should be aware of the possibility that the value of investments may vary as a result of changes in political, economic or market circumstances. No assurance can, therefore, be given that the sub-fund's investment objective will be achieved. It cannot be guaranteed either that the value of a share in a sub-fund will not fall below its value at the time of acquisition.

Concentration risk

Based on its investment policies, each sub-fund may invest in financial instruments from issuing institutions that (mainly) operate within the same sector or region, or in the same market. If this is the case, the concentration of the investment portfolio of the sub-fund may cause events that have an effect on these issuing institutions to have a greater effect on the sub-fund's assets than would occur with a less concentrated investment portfolio.

Currency risk

All or part of the investment portfolio of a sub-fund may be invested in currencies or financial instruments denominated in currencies other than its reference currency. As a result, fluctuations in exchange rates may have both a negative and a positive effect on the investment result of the sub-fund.

Counterparty risk

A counterparty of a sub-fund may fail to fulfil its obligations towards that sub-fund. In case of hedging transactions in classes of shares, the relevant sub-fund carries the counterparty risk. This risk is limited as much as possible by only entering into transactions with counterparties which it believes to be creditworthy, and may reduce the exposure incurred in connection with such transactions through the receipt of letters of credit or collateral from certain counterparties in accordance with the Luxembourg laws and regulations. The positions that each Sub-fund takes in terms of interest-rate swaps and credit default (index) swaps (where possible) are centrally cleared at a clearing house. This means that the Sub-fund has a single central counter party (CCP) for derivative instruments with which the required collateral (Margin) is exchanged on a daily basis. To hedge the initial required collateral (Initial Margin) and for the variable required collateral (Variation Margin), the Sub-funds use cash.

Risk of lending financial instruments

In the case of financial instrument lending transactions, the Company and its respective sub-funds run the risk that the borrower cannot comply with its obligation to return the financial instruments on the agreed date or furnish the requested collateral. The lending policy of the Company is designed to control these risks as much as possible.

The credit worthiness of counterparties in securities-lending transactions is assessed on the basis of how independent rating agencies regard their short-term credit worthiness and on the basis of their net assets. Guarantees given by parent companies are also taken into account. The fund only accepts collateral from OECD countries in the form of:

- government bonds with a minimum credit rating of BBB;
- the bonds of supranational bodies with a minimum credit rating of BBB-;
- stocks listed on the main indexes of stock markets in OECD countries and
- cash.

As of balance-sheet date, the fund had received collateral ensuing from securities-lending transactions. More information can be found on page 22.

Notes to the financial statements as at 30 June 2023 (continued)

1. General (continued)

Financial instruments (continued)

Risks (continued)

Liquidity risk

The actual buying and selling prices of financial instruments in which the sub-funds invest partly depend upon the liquidity of the financial instruments in question. It is possible that a position taken on behalf of the sub-funds cannot be quickly liquidated in a good time at a reasonable price due to a lack of liquidity in the market in terms of supply and demand. The sub-funds minimize this risk by mainly investing in financial instruments that are tradable on a daily basis.

Euro currency risk

All or part of the assets of the sub-funds may be invested in securities denominated in Euro. In the event of any adjustments, including a full break-up, an exit of individual countries or other circumstances that may result in the emergence or reintroduction of national currencies, each sub-fund runs the risks that the value of its investments is reduced and/or the liquidity of its investments is (temporarily) reduced, regardless of the measures the Company may seek to reduce this risk.

Sustainability risk

RIAM systematically incorporates sustainability factors, to the extent these present a material risk to a sub-fund, into its investment and portfolio construction processes, alongside traditional financial risk factors. This is done through ESG scoring methodologies using proprietary sustainability research and external resources which are built into the portfolio construction process.

Processes and controls for sustainability risk integration are embedded in a designated Sustainability Risk Policy which is maintained by the risk management function and governed by the Risk Management Committee (RMC). The Sustainability Risk Policy is built on three pillars. The environmental or social characteristics promoted by a Sub-fund or sustainable investment objective of a sub-fund is used to identify and assess the relevant material sustainability risk topics. Based on these characteristics or investment objectives sustainability risk is monitored. Sensitivity and scenario analyses are conducted on a frequent basis to assess any material impact climate changes risk may have on the portfolio of a Sub-fund.

Operational risk

The operational risk is the non inherent risk remaining after determining the risks as detailed above (general investment risk, counterparty risk, liquidity risk, Euro currency risk or risk of lending financial instruments). It mainly includes risks resulting from breakdowns in internal procedures, people and systems.

Insight into actual risks

The report of the Board of Directors, the Statement of net assets, the Notes to the financial statements and the Schedule of Investments, which include currency classification of the investments, give an insight into the actual risks at the end of the reporting period.

Risk management

Managing risk is a part of the investment process as a whole and with the help of advanced systems, the risks outlined above are limited, measured and monitored on the basis of fixed risk measures.

Policy regarding the use of derivatives

Investing implies that positions are taken. As it is possible to use various instruments, including derivative instruments, to construct an identical position, the selection of derivatives is subordinate to the positioning of an investment portfolio. In our published information, attention is given primarily to the overall position, and secondarily to the nature and volume of the financial instruments employed.

Derivative instruments

The unrealized results of derivative instruments are reported in the Statement of net assets. Commitments to derivatives are not included in the Statement of net assets. They are, however, explained in the Schedule of Investments. The unrealized results presented in the Statement of net assets are disclosed by contract in the Schedule of Investments. The derivative instruments listed in the Notes are transacted through third party brokers. Those brokers hold/paid collateral as described on page 21. The Company is exposed to counterparty risk in respect of all amounts including collateral due to it from such brokers.

Notes to the financial statements as at 30 June 2023 (continued)

2. Summary of significant accounting principles

General

Unless stated otherwise, the items shown in the financial statements are included at their nominal value and expressed in the reference currency of each sub-fund. This semi-annual report covers the reporting period from 1 January 2023 until 30 June 2023.

Preparation and presentation of financial statements

The financial statements are prepared on the basis of the last NAV calculated during the period (30 June 2023) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds. The going concern basis was applied for the preparation of the financial statements of the Fund and its sub-funds.

Combined figures

The combined figures are expressed in Euro and are presented for information purpose only. The combined figures are the sum of the statements of each sub-funds.

Foreign currencies

Transactions in currencies other than the reference currency of the relevant sub-fund are converted into the reference currency at the exchange rates prevailing at the time of the transaction. The market value of the investments, assets and liabilities expressed in currencies other than the reference currency of the sub-fund are converted into the sub-fund's reference currency at the exchange rates prevailing at the end of the reporting period. Any positive or negative exchange differences arising are accounted for in the Statement of operations and changes in net assets. The table on page 25 shows the exchange rates as at 30 June 2023.

Valuation of investments

Transferable securities, money market instruments and financial derivative instruments listed on an official stock exchange listing

These instruments are valued at their last available market price; in the event that there should be several such markets, on the basis of the last available price of the main market for the relevant security or asset. Should the last available market price for a given transferable security, money market instrument or financial derivative instrument not truly reflects its fair market value, then that transferable security, money market instrument or financial derivative instrument is valued on the basis of the probable sales price which the Board of Directors deems prudent to assume. Fixed income securities not traded on such markets are generally valued at the last available price or yield equivalents obtained from one or more dealers or pricing services or any other source in accordance with the valuation policy that has been ratified by the Board of Directors.

Transferable securities and/or money market instruments dealt in on another regulated market

These instruments are valued on the basis of their last available market price. Should the last available market price for a given transferable security and/or money market instrument not truly reflects its fair market value, then that transferable security and/or money market instrument in accordance with the valuation policy that has been ratified by the Board of Directors.

Transferable securities and/or money market instruments not listed or dealt in on any stock exchange or on any regulated market

In the event that any assets are not listed or dealt in on any stock exchange or on any regulated market, or if, with respect to assets listed or dealt in on any stock exchange, or on any regulated market as aforesaid, where the above valuation methods are inappropriate or misleading, the Board of Directors may adopt any other appropriate valuation principles for the assets of the Company.

Sub-funds primarily invested in markets which are closed for business at the time of valuation of the sub-fund are normally valued using the prices at the previous close of business.

Market volatility may result in the latest available prices not accurately reflecting the fair value of the sub-funds' investments. This situation could be exploited by investors who are aware of the direction of market movements, and who might deal to exploit the difference between the next published Net Asset Value and the fair value of the sub-funds' investments. By these investors paying less than the fair value for shares on issue, or receiving more than the fair value for shares on redemption, other shareholders may suffer a dilution in the value of their investment. To prevent this, the Company may, during periods of market volatility, adjust the Net Asset Value per Share prior to publication to reflect more accurately the fair value of the sub-funds' investments. Adjustment will be made provided that such change exceeds the threshold as determined by the Board of Directors for the relevant sub-fund. If an adjustment is made, it will be applied consistently to all classes of shares in the same sub-fund. At the end of the reporting period, no such adjustments were made.

Notes to the financial statements as at 30 June 2023 (continued)

2. Summary of significant accounting principles (continued)

Valuation of investments (continued)

Investment transactions and investment income

Securities are initially recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased. Results on sales of securities are determined on the basis of the average cost method (for futures first in first out method). Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/Premiums on zero coupon bonds are accreted as adjustments to interest income. Interest and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

3. Open forward exchange transactions

Open forward exchange transactions are valued with market practice valuation models using forwards rates based on exchange and interest rates applicable at 30 June 2023. The unrealized results of these transactions have been recorded gross in the Statement of net assets under the heading 'Unrealised gain/loss on forward currency exchange contracts' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on forward currency exchange contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral received or paid on these positions is stated in the table on page 21. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

4. Interest Rate Swaps

Interest rate swaps are valued with market practice valuation models using exchange and interest rates applicable at 30 June 2023. The unrealized gains/losses on interest rate swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 21. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

5. Credit Default Swaps

Credit default swaps are valued at fair value under procedures. The valuation is based on recognised market models with observable market inputs used to perform the valuation. The unrealized gains/losses on credit default swaps are recorded gross in the Statement of net assets under the heading 'Swap contracts at fair value' and changes in unrealized results are recorded in the Statement of operations and changes in net assets under the heading 'Net change in unrealised appreciation/(depreciation) on Swaps contracts'. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments. Information on the collateral on these positions is stated in the table on page 21. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'.

6. Financial futures contracts

Regulated futures contracts are valued at their exchange quoted settlement price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealized appreciation or depreciation. When the contract is closed, the Company records a realized gain or loss equal to difference between the value of the contract at the time it was opened and the value at the time it was closed. All margin deposits are included in the Statement of net assets under the heading 'Cash at bank and at brokers'.

Changes in unrealized results and realized results during the period are both recorded in the Statement of operations and changes in net assets. The contracts outstanding as at 30 June 2023 are disclosed in the Schedule of Investments.

Notes to the financial statements as at 30 June 2023 (continued)

7. Collateral

Several sub-funds received or paid collateral to cover the unrealized results on derivative instruments. Collaterals are calculated and settled on a daily basis per counterparty. The collateral is primarily cash held at the broker in the name of the sub-fund. The paid collateral is restricted cash and is included in the Statement of net assets under the Assets 'Cash at bank and at brokers'. The received collateral is included in the Statement of net assets under the liabilities 'Due to brokers'. No cash collateral has been reinvested. The amounts and counterparty are shown in the table below.

Sub-fund name	Currency	Counterparty	Type of collateral	Collateral received	Collateral pledged
Robeco High Yield Bonds Feeder Fund – zero duration	USD	Barclays ¹	Cash	1,000,424	837,260
Robeco High Yield Bonds Feeder Fund – zero duration	USD	Citi ¹	Cash	2	165,442
Robeco Financial Institutions Bonds Feeder Fund – zero duration	EUR	Barclays ¹	Cash	–	176
Robeco Global Credits Feeder Fund – zero duration	EUR	Barclays ¹	Cash	7,717,469	7,210,623
Robeco Global Credits Feeder Fund – zero duration	EUR	Citi ¹	Cash	10	1,303,417

¹The unrealized results on Interest Rate Swaps are settled daily via collateral payments/receipts between the fund and the Central Clearing Party (London Clearing House), which is placed between the fund and the counterparty.

In addition to the 'Cash at bank and at brokers/ Due to brokers' reflected in the Statement of Net Assets, the Fund received or paid collaterals which is not reflected in the Net Asset Value of the Fund neither in the Statement of Net Assets. The amount and counterparty are shown in the table below.

Sub-fund name	Currency	Counterparty	Type of collateral	Collateral received	Collateral pledged
Robeco High Yield Bonds Feeder Fund – zero duration	USD	BNP Paribas	Cash	600,050	–

8. Schedule of Investments

The Schedule of Investments of the sub-funds are included at the end of this report.

9. Securities lending

J.P. Morgan SE is lending agent for all Robeco (LU) Funds III securities lending transactions. J.P. Morgan SE is authorized to retain a fee in an amount equal to (A) 25% for any loans which generate a return of 0.5% or less and (B) 10% for any loans which generate a return greater than 0.5% of the sum of (i) earnings derived from Authorised Investments (as adjusted for any Rebate paid or received by J.P. Morgan) (ii) any fee, paid or payable by Borrower with respect to loans (including any loan fee but excluding any compensation payable by borrower under the MSLA in connection with a loan (net, however, of any other amount payable by Lender in connection with such loan). Gains and losses on Cash Collateral investments shall not be taken into account in calculating earnings for the purpose of J.P. Morgan's fees. The following table shows the position of the collateralized securities lending transactions with first-class financial institutions as described in the prospectus at the end of the reporting period as well as the income from securities lending over the reporting period for the Company and the income for J.P. Morgan SE. Income on securities lending transactions is recorded under the heading 'Securities lending income' in the Statement of operations and changes in net assets. Collateral received in the frame of the lending activity, primarily securities, is held in the name of the fund on an escrow account with external agents. In exceptional cases, the collateral is received in cash, which is not subject to reinvestment. More information on collateral received can be found on page 38 and further.

Notes to the financial statements as at 30 June 2023 (continued)

10. Taxes

The classes of shares of the sub-funds are liable in Luxembourg to an annual duty ('taxe d'abonnement'/'subscription tax') at the rate of 0.05% of their net assets calculated and payable at the end of each quarter. This rate is 0.01% per annum for institutional classes of shares such as class IH shares. To the extent that the assets of the sub-funds are invested in investment funds which are established in Luxembourg, no such tax is payable, provided that the relevant investment funds have been subject to this tax. The sub-funds will receive income from their investments after deduction of applicable withholding taxes in the country of origin. There are no Luxembourg income, withholding, capital gains, estate or inheritance taxes payable by the sub-funds.

11. Management Company

The Board of Directors of the Company have appointed Robeco Institutional Asset Management B.V. as the Management Company to be responsible on a day-to-day basis for providing administration, marketing and investment management services in respect of the sub-funds.

Robeco Institutional Asset Management ("RIAM") is incorporated under the laws of The Netherlands on 21 May 1974 and at that time called Rotrusco B.V. On 25 February 1997, the name was changed into RIAM. RIAM holds an AIFMD license as referred to in Section 2:65 Wft. In addition, RIAM is licensed as a manager of UCITS (2:69b Wft, the Dutch Financial Supervision Act). RIAM is moreover authorized to manage individual assets and give advice with respect to financial instruments. RIAM is subject to supervision by the Dutch Authority for the Financial Markets (Stichting Autoriteit Financiële Markten, "AFM").

The Management Company has delegated the administration functions and registrar agent functions to J.P. Morgan SE.

RIAM is part of ORIX Corporation Europe N.V. and also acts as the Management Company for other Luxembourg and Dutch domiciled funds.

Notes to the financial statements as at 30 June 2023 (continued)

12. Management and service fees

The different sub-funds or class of shares incur an annual management fee payable to the Management Company, which reflects expenses¹ related to the management of the sub-funds. Furthermore the different sub-funds or classes of shares incur an annual service fee payable to the Management Company reflecting expenses¹ such as the fees of the administration agent, the registrar agent, auditors and legal advisers, the costs of custody (including custody fees and bank charges), the costs of depositary services, the costs of preparing, printing and distributing all prospectuses, memorandums, reports and other necessary documents concerning the Company, any fees and expenses involved in the registration of the Company with any governmental agency and stock exchange, the costs of publishing prices and operational expenses, and the cost of holding shareholders' meetings.

¹ Additional expenses may be charged to the Fund on an exceptional basis as disclosed in the prospectus.

The annual charges, both management fee and service fee, are expressed as a percentage of the net asset value. The charges, paid quarterly, are based on the net asset value of the relevant period and are reflected in the share price.

The following table shows the maximum percentages for the different outstanding classes of shares on an annual basis.

	Management fee (%)	Service fee (%)
Robeco QI Long/Short Dynamic Duration

IH USD	0.40	0.12

If the net asset value per share class exceeds EUR 1 billion the service fee will be reduced by 0.02% for the portion above 1 billion. If the net asset per share class value exceeds EUR 5 billion, the service fee will be reduced by a further 0.02% for the portion above EUR 5 billion.

13. Depositary fees

The Depositary bank is remunerated in accordance with the agreement between J.P. Morgan SE (acting as the depositary) and the Company. The depositary fees are paid by RIAM out of the service fee.

Notes to the financial statements as at 30 June 2023 (continued)

14. Other operating expenses

The banking fees relating to the assets of the sub-funds or expenses incurred thereof, such as proxy voting are paid by RIAM out of the service fee. The costs of establishing the Company have been paid entirely. If additional sub-funds are created in the future, these sub-funds will bear, in principle, their own formation expenses.

15. Transaction costs

The sub-funds and its classes of shares pay directly commissions, brokerage fees and taxes resulting from financial transactions. Transaction costs are included in the purchase/sale price of the securities.

Sub-Fund	Sub-Fund Currency	Total transaction costs
Robeco QI Long/Short Dynamic Duration	EUR	24
Robeco High Yield Bonds Feeder Fund – zero duration	USD	3,269
Robeco Financial Institutions Bonds Feeder Fund – zero duration	EUR	903
Robeco Global Credits Feeder Fund – zero duration	EUR	19,181

16. Total Expense Ratio (TER)

The Total Expense Ratio (“TER”) expresses the operational costs (e.g. management fee, service fee, taxe d’abonnement and bank charges) charged to the sub-funds as a percentage of the average assets entrusted, calculated on a daily basis, during the reporting period. The TER as shown below do not include transaction costs. The other costs concern mainly bank charges, and taxe d’abonnement. Total Expense Ratio are annualized for periods less than one year.

The total expense ratio (TER) was calculated based on the version currently applicable of the “Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes” of the Swiss Funds & Asset Management Association (SFAMA).

Sub-Fund	Management fee	Service fee	Other costs	Other costs fund shares	Total

Notes to the financial statements as at 30 June 2023 (continued)

17. Hard commissions and soft-dollar arrangements

There were no hard commissions or soft-dollar arrangements during the reporting period.

18. Portfolio Turnover Ratio (PTR)

This is the turnover ratio of the investments, against the average assets entrusted and this is a measure of the incurred transaction costs resulting from the investment portfolio policies pursued and the ensuing investment transactions. In the calculation method that is used the amount of turnover is determined by the sum of purchases and sales of investments, excluding derivative and liquidity instruments, less the sum of issuance and repurchase of own shares, divided by the daily average of the net assets. The portfolio turnover ratio is determined by expressing the amount of turnover as a percentage of the average assets entrusted. Following table shows the portfolio turnover ratios of the sub-funds.

Sub-Fund Name	Portfolio turnover ratio (%)
Robeco QI Long/Short Dynamic Duration	42.60
Robeco High Yield Bonds Feeder Fund – zero duration	22.34
Robeco Financial Institutions Bonds Feeder Fund – zero duration	(0.38)
Robeco Global Credits Feeder Fund – zero duration	33.62

19. Changes in the investment portfolio

The statement of changes in the investment portfolio during the period from 1 January 2023 to 30 June 2023 inclusive may be obtained free of charge at the offices of the Company, the Depositary, or any Nominee.

20. Retrocessions and trailer fees

Trailer fees for the marketing of the sub-funds (Commission d'Encours) are paid to distributors and assets managers from the management fee. No retrocession has been granted during the reporting period.

21. Transactions with affiliated parties

No transactions were effected with affiliated parties during the reporting period other than management activities.

22. Exchange Rates

Currency	Rate
EUR = 1	
GBP	0.8581
USD	1.0910

23. safeguards for non-audit services

In addition to the audit, KPMG Audit S.à r.l. provided indirectly permissible tax services to the Fund. Where non-audit services are provided to the Fund, full consideration of the financial and other implications for the independence of the auditor arising from such engagement are considered prior to proceeding.

Luxembourg, 31 August 2023

The Board of Directors
Mr. J.H. van den Akker
Mr. I.R.M. Frielink
Mr. C.M.A. Hertz
Mr. P.F. van der Worp
Mrs. J.F. Wilkinson

Other data

Savings directive information

Robeco (LU) Funds III is subject to the EU savings directive.

Stock-exchange listing

All the Robeco (LU) Funds III share-classes D and D2 are listed on the Luxembourg Stock Exchange.

Auditors

No external audit of this semi-annual report has been conducted.

Remuneration policy and remuneration paid

The fund itself does not employ any personnel and is managed by Robeco Institutional Asset Management B.V. ('RIAM'). The remuneration for persons working for RIAM comes out of the management fee.

Remuneration policy

RIAM's remuneration policy, which applies to all staff working under its responsibility, complies with the applicable requirements laid down in the European framework documents of the UCITS Directive and the ESMA guidelines for a responsible remuneration policy under the UCITS Directive.

The remuneration policy of RIAM can be obtained free of charge at the offices of the Company.

This remuneration policy applies to all staff of RIAM, including individuals who may have a material impact on the risk profile of the fund. These persons are designated to be 'Identified Staff'.

Responsibility for and application of the policy

RIAM's Remuneration Policy is determined, applied and annually reviewed by and on behalf of RIAM with the approval of its shareholder, the (Board of) Robeco Holding B.V. For each review (the Board of) Robeco Holding B.V. shall obtain prior advice from the Supervisory Board of RIAM, which acts as its Supervisory Board. In the application and evaluation of the remuneration policy, RIAM occasionally makes use of the services of various external advisers.

Additional information Securities Financing Transaction

Securities Financing Transactions

The fund engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions (SFTs) include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) and/or Total Return Swaps. In accordance with Article 13 of the Regulation, the funds involvement in and exposures related to SFTs and Total Return Swaps for the reporting date are detailed below.

Securities Lending

Global Data

Amount of securities on loan

The total value of securities on loan as a proportion of the Sub-Funds' total lendable assets as at the reporting date is detailed below. Total lendable assets represent the aggregate value of asset types forming part of the Sub-Funds' securities lending programme.

Sub-Fund	% of Total Lendable Assets
Robeco QI Long/Short Dynamic Duration	9.41

Amount of assets engaged in each type of SFTs and Total Return Swaps

The following table represents the fair value of assets engaged in each type of SFTs (including Total Return Swaps) in the fund currency.

	Market value of Securities on Loan (in Sub-Fund Currency)	% of AUM
Robeco QI Long/Short Dynamic Duration	EUR	
Securities lending	4,530,644	9.05%

Concentration Data

Ten largest collateral issuers

The following table lists the ten largest issuers by value of non-cash collateral received by the Sub-Funds by way of title transfer collateral arrangement across securities lending transactions, reverse repurchase agreements and Over The Counter (OTC) derivatives transactions (including Total Return Swaps), as at the reporting date.

Issuer	Non-Cash Collateral
Robeco QI Long/Short Dynamic Duration	EUR
French Government	737,007
German Government	475,707
Belgian Government	375,259
Austrian Government	352,462
Finnish Government	215,162
Dutch Government	82,735
UK Government	2,216

Securities lending	2,616,101	40,057	64,854	328,366	534,510	1,272,761	–	4,856,649

Currency of collateral

The following table provides an analysis of the currency profile of collateral received in relation to SFTs and OTC derivative transactions (including Total Return Swaps) as at the reporting date in the currency of the Sub-Funds.

Received in Currency	Value in Sub-Fund currency
Robeco QI Long/Short Dynamic Duration	EUR
	Securities lending
EUR	2,240,548
USD	2,616,101
	4,856,649

Maturity tenor of securities lending transactions

All securities on loan can be recalled at any point. The Fund's securities lending transactions have open maturity.

Settlement and clearing

The Company's securities lending transactions, including related collateral, are settled and cleared on a tri-party basis.

Re-use of collateral

Non cash collateral, received in a securities lending transaction may not be sold, re-invested or pledged. Cash collateral received from such transactions is re-used in a reverse repurchase transaction.

Safekeeping of collateral

Collateral received

J.P. Morgan SE as securities lending agent of the Fund, is responsible for the safekeeping of the collateral received in respect of securities lending transactions as at the reporting date. The Custodian J.P. Morgan SE is ultimately liable for any loss of instruments held in custody or by a third party to whom custody had been delegated (the sub-custody).

Collateral granted

No collateral is granted by the Company as part of their securities lending activities.

Return and cost

The total income earned from securities lending transactions is split between the fund and the securities lending agent. Details of this split are disclosed in notes to the financial statements on page 22. Income earned during the period by the Fund from securities lending transactions is disclosed in the statement of operations and changes in net assets on pages from 12 to 13.
