INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the full amount invested.

- Robeco Credit Income ("the Fund") invests primarily in bonds and debt securities issued by public- or private-sector entities.
- The Fund may invest in financial derivative instruments and is subject to high leverage risk and risks of implementing active financial derivative instrument and currency positions not correlated with the underlying assets. The Fund may have a net leveraged exposure of more than 100% of its net asset value. This will further magnify any potential negative impact of any change in the value of the underlying asset on the Fund. Other risks associated with derivatives include substantial counterparty, liquidity and hedging risks, as well as higher volatility or even a total loss of the Fund's assets within a short period of time.
- The Fund invests in debt securities and is therefore subject to credit risk, interest rate risk, risk of investment in non-investment grade or unrated securities, valuation risk and market risk. The Fund also invests in debt instruments with loss-absorption features, which are highly complex and are of higher risk, potentially resulting in a significant or total reduction in value.
- The Fund is also subject to currency risk, liquidity risk and counterparty risk.
- The Fund may engage in securities lending transactions which may involve the risk that the recipient may fail to return the lent securities on the agreed date or furnish the requested additional collateral if required. This could result in losses and negatively impact the Fund's net asset value.
- The Fund may, at its discretion, pay dividends out of capital. Distributions out of capital may result in an immediate reduction of the net asset value per share of the relevant class. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment.
- Investors should not invest in the Fund solely based on the information provided in this document and should read the offering documents for details (including the risk factors).

The performance data for this fund is either unavailable or restricted by the MIFID legislation which prevents us from reporting performance data for funds with less than a 12-month track record.

Past performance is no guarantee of future results. The value of your investments may fluctuate. Source: Robeco. All figures in HKD. Performance is shown as of the month end in share class currency on a NAV-to-NAV price basis with dividend reinvested, net of fees. Annualized for periods longer than one year, periods shorter than one year are cumulative. Due to a difference in measurement period between the fund and the benchmark, performance differences may arise. Benchmark performance (if any) displayed in denominated currency and for comparative purpose only. Indices are unmanaged, and one cannot invest directly in an index. They do not reflect any fees, expenses or sales charges. If the currency in which the past performance is displayed differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.

About the fund

Robeco Credit Income is an actively managed fund that invests in global investment grade credit, high yield and emerging credits to optimize yield and income through the credit cycle. The fund primarily invests in short-dated bonds and interest rate duration range between 1-6 years, while, at the same time, invest in companies that contribute to realizing the UN Sustainable Development Goals (SDGs). The selection of these bonds is based on fundamental analysis. Performance drivers are the top-down beta positioning as well as bottom-up issuer selection. The portfolio is built on the basis of the eligible investment universe and the relevant SDGs using an internally developed framework. The fund's objective is to maximize current income. The investment policy of the fund is not constrained by a benchmark, nor does it seek to outperform any benchmark.

Dividend policy

This share class aims to distribute dividend on a monthly basis. The frequency of dividend distributions is an aim and not a guarantee. The Fund may, at their discretion, pay dividends out of capital or capital gains.
Distributions out of capital may result in the reduction of an investor’s original capital invested in the Fund or from any capital gains attributable to that original investment of the Fund. Also, any distributions involving the capital and/or capital gains may result in an immediate reduction of the net asset value per share of the relevant class. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor’s original investment or from any capital gains attributable to that original investment.

Important Information

Unless stated otherwise, Source: Robeco. Performance is shown as of the month end in share class currency on a NAV-to-NAV price basis with dividend reinvested, net of fees.

Investment involves risks. Past performance is not indicative of future performance. The value of investments may fluctuate. This document is for information only and does not constitute any investment advice or an offer or solicitation to buy or sell in any securities or to adopt any investment strategy. Investors should not base their investment decisions solely on the information provided in this document and are advised to seek independent advice (including advice on tax implications) before making any investment decisions. Investors should ensure they fully understand the risks associated with the Fund and should also consider their own investment objectives and risk tolerance level. Please refer to the relevant offering documents, including the Prospectus, Hong Kong Offering Document and the Key Facts Statement of the Fund, for further details including the risk factors. The investment returns are denominated in stated currency, which may be a foreign currency other than USD and HKD ("other foreign currency"). US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar / other foreign currency exchange rate. No assurance can be given that the investment objective of any investment products will be achieved. All data, estimates, opinions and other information provided are as of the date shown above and may change as market conditions evolve, and are subject to change without notice. Robeco accepts no liability for any direct, indirect, or consequential loss arising from the use of this document or any comments, opinions, or estimates contained herein.

Where a reference is made to the frequency of dividend distributions, this frequency is an aim and not a guarantee. Dividend yield is not guaranteed and is not indicative of the return of the Fund. The Fund may, at their discretion, pay dividends out of capital or capital gains. Distributions out of capital may result in the reduction of an investor's original capital invested in the Fund or from any capital gains attributable to that original investment of the Fund. Also, any distributions involving the capital and/or capital gains may result in an immediate reduction of the net asset value per share of the relevant class. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Please refer to Composition of the dividend payments document available at www.robeco.com.hk for details, including the explanatory notes.

Where applicable, investors holding accumulation shares of the Fund will not receive any distributions. Instead, the income due to them will be automatically reinvested and added to the Fund and will thus contribute to a further increase in the value of the total net assets.
