We face a considerable and encompassing climate challenge, requiring collective and urgent action.

# Climate change as a responsibility and a potential opportunity

## A serious challenge of global proportions

The changing climate is one of the biggest challenges the world faces today. Human activity, primarily through the consumption of fossil fuels and changes in land use, has caused the temperature of the earth's atmosphere to rise, which in turn has created disruptions in weather patterns and temperatures. If unmitigated, climate change will have a far-reaching long-term impact on society and the global economy.

For example, changing weather patterns and loss of biodiversity could threaten food security and increase poverty, inequality and geopolitical tension. Infrastructural damage owing to extreme weather imposes huge social and economic costs, including health risks, loss of productivity and increased fiscal burdens.

Climate change is already leading to widespread disruption of nature. Climate impact is felt in every region, but it is particularly strong for over 3 billion vulnerable people living in the most exposed areas in Africa, Asia and small island states. Climate impact is also magnified in cities, compounded by air pollution, heat stress and rainfall flooding.

The climate challenge is considerable and encompassing, and requires collective and urgent action.

## Agreeing to make a difference

The Paris Agreement, signed in 2015, is an international accord that aims to limit the rise in global average temperatures to below 2 °C above pre-industrial levels by the end of this century, and to pursue efforts to limit it to 1.5 °C.

In order to meet the goals of the agreement, scientists concur that cuts are needed in global emissions of greenhouse gases. The Paris Agreement<sup>1</sup> requires all signatories to put forward their best efforts through nationally determined contributions and to strengthen these efforts in the years ahead. This includes a requirement to report regularly on national emissions and on decarbonization efforts.

1. <https://unfccc.int/process-and-meetings/the-paris-agreement/the-paris-agreement>

### The responsibility of the asset management industry

It is clear that this agreement confers a high level of responsibility and accountability on nations, organizations and individuals. Our view is that investors have a pivotal role in this, given the tremendous influence they wield in driving change through capital allocation. In this regard, Robeco acknowledges the responsibility of the asset management industry in identifying and managing climate change risks through the investment decisions we make and the contact we have with investee companies and other institutions.

We are committed to making our contribution to meeting the Paris Agreement. One important step in this regard is our ambition, expressed in December 2020, to achieve net-zero emissions by 2050 across all our assets under management. One important step in this regard is the roadmap we laid out in October 2021 for achieving carbon neutrality across all our assets under management by 2050. Our roadmap has three pillars: decarbonizing our activities, accelerating the transition and promoting climate-aligned investing.

Our vision in committing to net zero this is that safeguarding economic, environmental and social assets is a prerequisite for a healthy economy and the generation of attractive returns in the future. We firmly believe this will also create opportunities to enhance long-term risk-adjusted returns. The low-carbon transition is not only a moral imperative, but also the prime investment opportunity of our generation.

---

‘Robeco is committed to the Paris Agreement. Our ambition is to achieve net-zero emissions by 2050 across all our assets under management’

---

# 2

Robeco uses its sustainable investing expertise to transform the climate challenge into an investment opportunity.

# Enabling climate investing

## Climate-focused investing that relies on specialized sustainable investing expertise

There are many facets to investing to mitigate climate change. A critical element in such an approach is a sharp focus on decarbonization of investment portfolios, in line with the ambitions expressed in the Paris commitment. Getting this right requires a combination of boldness, deep technical expertise and a track record in sustainable investing.

Boldness is necessary – not only because this is pioneering work within the investment industry, but also because of the urgency and the scale of the solutions that are needed. At this point of no return, time is limited and it is vital to have access to proven technical expertise on climate data management and analysis, carbon accounting and environmental, social and governance (ESG) analysis. What's also required is a credible and well-founded understanding of sustainable investing. This needs to be embedded in all aspects of the investment approach and must factor in the complexities of driving positive change through active ownership and engagement with investee companies.

## A credible track record in sustainable investing

Robeco has a track record of more than a quarter of a century in sustainable investing, built on the expertise of our analysts, portfolio managers, the Sustainable Investing Center of Expertise, and on the use of various proprietary tools and databases. All of these are geared to managing climate-related risks and to identifying the opportunity potential that the climate challenge presents.

We acquire and generate diverse climate-related data that helps us understand the risks and potential opportunities. Data is converted into scores, footprint reports, impact reports and insights, which are integrated across our full range of asset management products and services. Our in-house data scientist quality-checks the raw data and oversees this process.

Meanwhile, we developed an operational carbon accounting data infrastructure that calculates carbon intensities and footprints across a variety of metrics. The calculations are based on emissions data for Scope 1, 2 and 3. These calculations enable us to assess and quantify the carbon emissions embedded in our investments across all our equity and corporate debt investments.

Robeco has a long track record of engaging with companies on their environmental, social and governance practices, and using our voting rights to support shareholder proposals that help address climate change risks. We encourage the implementation of proactive and ambitious environmental strategies, the pursuit of operational excellence, the creation of asset portfolio resilience, the innovation of business models, and responsible participation in the public policy debate. In our climate engagement program, we focus on industries most prone to climate change risks, such as energy, utilities, as well as those issuers falling behind in the low-carbon transition. Collaboration is essential to achieving our engagement goals. We play an active role in several climate change collaboration platforms, most notably the Climate Action 100+ initiative, the Transition Pathway Initiative and the Institutional Investors Group on Climate Change.

### Pioneering in sustainable investing, with a proposed climate-focused fixed income solution

Robeco harnesses its extensive know-how and proprietary processes to invest in line with the targets of the Paris Agreement. Specifically, we pioneered a new investment solution for climate and decarbonization in 2020, to be one of the first to launch global fixed income strategies that are compliant with the Paris Agreement: the Robeco Climate Global Bonds and Climate Global Credits strategies.

The strategies build on Robeco's established global fixed income strategy by fully integrating climate considerations into research and portfolio construction. They draw on the tools provided by the EU Action Plan for Financing Sustainable Growth, such as the Paris-aligned benchmark regulations and the taxonomy for sustainable activities.

These strategies are a logical extension of the sustainable approach we have in our fixed income range, given our experience with ESG integration in all of our sovereign bond and corporate credit strategies, and the impact considerations we apply in the SDG Credit range and our Green Bonds strategy.

---

'We encourage the implementation of proactive and ambitious environmental strategies and responsible participation in the public policy debate'

---

# Moving from the Paris Agreement towards real-world impact

## Regulation provided in the EU Action Plan

The Paris Agreement was a milestone, providing global recognition of the need for urgent action to reduce climate change. It was followed by the EU Action Plan in March 2018, which is a far-reaching climate-related regulatory package for the financial sector. It is one of the most important translations of the Paris Agreement into regulation and it aims to promote capital allocation to economic activities that are environmentally sustainable and inclusive. The Action Plan encourages economic activity that is in line with the objective of the Paris Agreement: to keep the temperature rise well below 2 °C above pre-industrial levels, and pursuing efforts to limit it even further to 1.5 °C.

## Equipping asset managers to become climate leaders

The Action Plan facilitates the creation of strategies that meet EU regulations in terms of climate change and sustainability. It provides an EU classification system for sustainable activities – referred to as the taxonomy – and guidelines for developing sustainability benchmarks.

The latter was incorporated in the Benchmarks Regulation, which was presented in December 2019, and is the basis for the decarbonization trajectory of the Robeco Climate Global Fixed Income strategies.<sup>2</sup>

The EU taxonomy for sustainable activities is critical in providing clarity for bottom-up issuer analysis in a fixed income strategy. It provides an encyclopedia of economic activity and helps financial players determine which activities qualify as sustainable from a climate change perspective, based on descriptions and thresholds.

---

‘The Benchmarks Regulation is the basis for the decarbonization trajectory of the Robeco Climate Fixed Income strategies’

---

2. The Regulation introduced a new category of benchmarks, referred to as EU Climate Benchmarks (the EU Climate Transition Benchmarks and the EU Paris-aligned benchmarks), and sustainability-related disclosures for all benchmarks.

# 3

Robeco has innovated by partnering with Solactive to create Paris compliant benchmarks for fixed income investing.

# The new Paris-aligned benchmark sets the bar

The Benchmarks Regulation defines the Paris-aligned benchmark. At the time that it was published, there was no existing Paris-aligned benchmark for global aggregate fixed income. Moreover, the Regulation only covers corporates, and does not incorporate guidelines and requirements for sovereigns.

Robeco innovated in this area, by working with Solactive to create Paris-aligned and Paris-aware benchmarks for fixed income investing – for corporate credits and aggregate bonds respectively. These are the indices against which the performance of the Robeco Climate Global Fixed Income strategies are measured. Using these benchmarks, Robeco takes a global leadership role in Paris-aligned fixed income investments.

The benchmarks start with a lower CO<sub>2</sub> emission footprint than the global market universe and will decarbonize at a rate of 7% on average per annum relative to the starting point. In the case of the Paris-aligned index for credits, the starting point is 50% below the broader market, in line with the EU Benchmark Regulation for Paris-aligned benchmarks.

Despite these carbon-related constraints, our findings are that the index characteristics mimic those of the general market over time. Specifically, back-testing of the Solactive Paris-aligned and Paris-aware benchmark indices for credits and bonds against the Solactive Global indices for credits and bonds gives favorable results: the behavior and yield characteristics of the Paris-compliant indices are very similar to those of their equivalent generic indices, with the important difference being that the Paris-aligned and Paris-aware indices have a much lower carbon footprint.<sup>3</sup>

---

## The indices are structured on the following principles

---

### For corporate bonds

- A process of year-on-year decarbonization is reflected, equaling at least 7% on average per annum, based on the Scope 1, 2 and 3 emissions.
- All industries except fossil fuels are included, and sector weights are kept close to the broader market index.
- Emissions are normalized by the total capital of issuers, measured in terms of book values.

### For sovereign bonds

- A process of year-on-year decarbonization is reflected, equaling at least 7% on average per annum.
- Decarbonization of the index is achieved through decarbonization at country level, as well as by adjusting the weights of individual sovereigns.
- Country emissions are normalized by the population size, measured in terms of CO<sub>2</sub> emissions per capita.

---

3. Simulated past performance is not a reliable indicator of future performance.

# 4

These active and contrarian investment strategies have explicit climate targets and are compliant with the Paris Agreement.

# Our climate solutions are at the forefront of the transition to a low-carbon economy

## One of the first asset managers to use a Paris-aligned fixed income benchmark

The Robeco Climate Global Fixed Income capability is a unique, fixed income solution that reflects the decarbonization plan calculated by the Intergovernmental Panel on Climate Change. The Climate Global Bonds and Climate Global Credits strategies invest in global fixed income assets in a way that strives to keep the temperature rise well below 2 °C above pre-industrial levels, and aims to limit it even further to 1.5 °C.

They follow a 7% average year-on-year decarbonization pathway by selecting issuers that fit within that plan. The carbon-emission footprint is measured per capita for sovereigns and per unit of total capital for corporates. The Climate Global Credit strategy goes further by starting with a 50% lower emission footprint than the investment universe at inception, and excludes fossil fuel production.

These two actively managed strategies are benchmarked against the indices that were co-developed with Solactive, and which are compliant with the Paris Agreement.

Importantly, the regulatory requirements for a Paris-aligned benchmark exceed the requirements of the Paris commitment. It is therefore appropriate that the EU Technical Group on Sustainable Finance describes Paris-aligned benchmarks as “tools for investors with the willingness to be at the forefront of the transition, favoring today the players of tomorrow’s economy”.

The high standards Robeco pursues in following a demanding carbon-reduction trajectory for our investment portfolios reflect our commitment to combating climate change.

## An active, contrarian approach to climate change considerations

Robeco Climate Global Bonds and Robeco Climate Global Credits are active investment strategies that build on our established global fixed income capabilities. They combine our top-down perspective on the macroeconomic and credit cycles with bottom-up issuer selection, to navigate market cycles, to attempt to exploit market inefficiencies, and contribute positively to sustainable activity.

Climate change considerations are fully integrated in the investment process and portfolio construction, across multiple components (see Figure 1).

**Figure 1 | Climate change considerations are fully integrated in the investment process**

Source: Robeco

The investment approach is contrarian, value focused and research driven.

The investment teams filter down the available investment universe to a select list of issuers. This incorporates sector, country as well as environmental, social and governance (ESG) considerations.

The Robeco Sustainable Investing Center of Expertise shares its input with the investment teams and our Data Scientist team provides insight into greenhouse gas emissions and their varying intensities.

The issuer selection process factors in the greenhouse gas emission footprint in the portfolio construction. This is to ensure the strategy remains on a 7% average year-on-year decarbonization pathway. Moreover, by assessing issuers' climate change exposure and decarbonization efforts, our approach is to invest in companies we believe fit within this decarbonization pathway. Importantly, this may include issuers whose emissions are

currently high, as our criterion for allocating capital is that sovereigns and companies must be serious about making the transition to sustainable energy, and that they play an important role in facilitating such a shift.

#### [An experienced, international team of analysts and portfolio managers](#)

The strategy benefits from the expertise and proven track record of the fixed income specialists, as well as from our in-house sustainability expertise.

Our fixed income teams are located in Rotterdam, London, New York, Singapore and Hong Kong, and manage various global macro and credit portfolios. The in-depth research of our career analysts has been a vital factor in the consistent outperformance of our fixed income portfolios over the years.

# 5

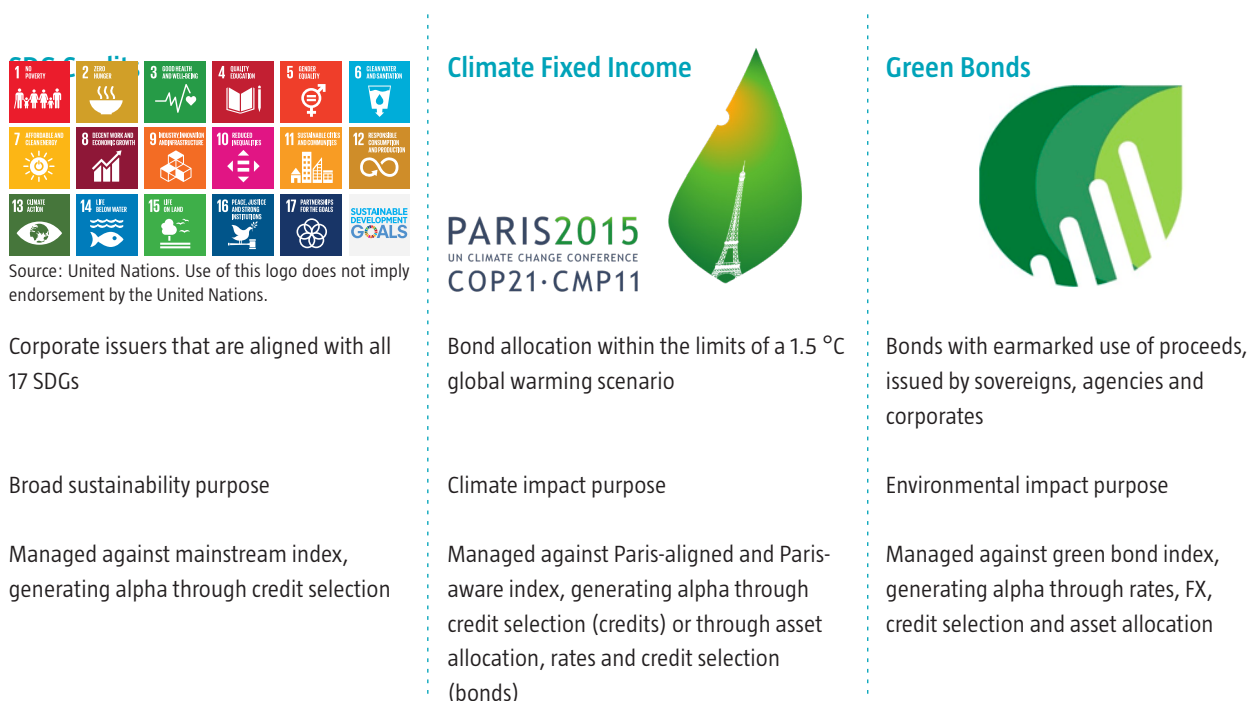

Robeco's Climate Fixed Income products are part of our fixed income impact range, and subject to the same considerations as our extensive global fixed income capabilities.

# Many shades of green in our fixed income impact range

## A range of impact options to choose from

Robeco's Climate Fixed Income strategies are part of our fixed income impact range, and subject to the same considerations as our extensive global fixed income capabilities. Our impact range consists of three strong propositions for investors wanting to allocate capital in a way that brings about positive change: Paris-compliant investing that strives to keep the temperature rise well below 2 °C above pre-industrial levels, and aims to limit it even further to 1.5 °C; financing the transition of companies by investing in bonds with dedicated use of proceeds; and contributing to the 17 United Nations SDGs by screening the investable universe on alignment with the SDGs.

**Figure 2 | Many shades of green in our fixed income impact range**

Source: Robeco

Robeco's **Climate Fixed Income** strategies allocate to bonds in a way that strives to keep the global temperature rise well below 2 °C above pre-industrial levels, and aims to limit it even further to 1.5 °C, and have a climate impact focus. These strategies are managed against a Paris-aligned and Paris-aware index and generate alpha through credit selection (in the case of Climate Global Credits) or asset allocation, FX, rates and credit selection (in the case of Climate Global Bonds).

Our **Green Bonds strategies** are focused on environmental impact, and cover bonds issued by sovereigns, agencies and corporates, with proceeds that are earmarked for green projects. The strategies are managed against a green bond index and generate alpha through rates, credit selection and asset allocation.

The **SDG Credits** suite of products have a broad sustainability focus, and targets corporate issuers aligned with the 17 Sustainable Development Goals (SDGs). These strategies are managed against conventional indices and deliver alpha through credit selection.

# 6

Our Climate Global Fixed Income strategies provide an opportunity for investors wanting to be at the forefront of the transition to a low-carbon economy.

# Conclusion: an opportunity to be part of the solution

## Aligning with the Paris Agreement is the latest innovation in our sustainable investing capabilities

Robeco acknowledges that urgent and bold action is needed to mitigate climate change. We also recognize the responsibility and stewardship required of the asset management industry in working towards the goals of the Paris Agreement. Our commitment is to contribute to decarbonization through our investment activities, in line with the ambitious target of limiting the temperature rise to well below 2 °C above pre-industrial levels, and pursuing efforts to limit it to 1.5 °C. We do so by managing climate risks as well as seeking out opportunities to bring innovative, positive change through our investment and engagement activities.

Our various innovations in sustainable investing, and in climate investing in particular, include our Climate Global Fixed Income strategies. We view these strategies as an opportunity for investors wanting to be at the forefront of the transition to a low-carbon economy.

## Important Information

Robeco Institutional Asset Management B.V. has a license as manager of Undertakings for Collective Investment in Transferable Securities (UCITS) and Alternative Investment Funds (AIFs) ("Fund(s)") from the Netherlands Authority for the Financial Markets in Amsterdam. This marketing document is intended solely for professional investors, defined as investors qualifying as professional clients, who have requested to be treated as professional clients or are authorized to receive such information under any applicable laws. Robeco Institutional Asset Management B.V. and/or its related, affiliated and subsidiary companies, ("Robeco"), will not be liable for any damages arising out of the use of this document. Users of this information who provide investment services in the European Union have their own responsibility to assess whether they are allowed to receive the information in accordance with MiFID II regulations. To the extent this information qualifies as a reasonable and appropriate minor non-monetary benefit under MiFID II, users that provide investment services in the European Union are responsible for complying with applicable recordkeeping and disclosure requirements. The content of this document is based upon sources of information believed to be reliable and comes without warranties of any kind. Without further explanation this document cannot be considered complete. Any opinions, estimates or forecasts may be changed at any time without prior warning. If in doubt, please seek independent advice. This document is intended to provide the professional investor with general information about Robeco's specific capabilities but has not been prepared by Robeco as investment research and does not constitute an investment recommendation or advice to buy or sell certain securities or investment products or to adopt any investment strategy or legal, accounting or tax advice. No part of this document may be reproduced or published in any form or by any means without Robeco's prior written permission. Investment involves risks. Before investing, please note the initial capital is not guaranteed. Investors should ensure they fully understand the risk associated with any Robeco product or service offered in their country of domicile. Investors should also consider their own investment objective and risk tolerance level. Historical returns are provided for illustrative purposes only. The price of units may go down as well as up and past performance is no guarantee of future results. If the currency in which the past performance is displayed differs from the currency of the country in which you reside, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency. The performance data do not take account of the commissions and costs incurred when trading securities in client portfolios or for the issue and redemption of units. Unless otherwise stated, the prices used for the performance figures of the Luxembourg-based Funds are the end-of-month transaction prices net of fees up to 4 August 2010. From 4 August 2010, the transaction prices net of fees will be those of the first business day of the month. Return figures versus the benchmark show the investment management result before management and/or performance fees; the Fund returns are with dividends reinvested and based on net asset values with prices and exchange rates as at the valuation moment of the benchmark. Please refer to the prospectus of the Funds for further details. Performance is quoted net of investment management fees. The ongoing charges mentioned in this document are the ones stated in the Fund's latest annual report at closing date of the last calendar year. This document is not directed to or intended for distribution to or for use by any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, document, availability or use would be contrary to law or regulation or which would subject any Fund or Robeco Institutional Asset Management B.V. to any registration or licensing requirement within such jurisdiction. Any decision to subscribe for interests in a Fund offered in a particular jurisdiction must be made solely on the basis of information contained in the prospectus, which information may be different from the information contained in this document. Prospective applicants for shares should inform themselves as to legal requirements which may also apply and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence or domicile. The Fund information, if any, contained in this document is qualified in its entirety by reference to the prospectus, and this document should, at all times, be read in conjunction with the prospectus. Detailed information on the Fund and associated risks is contained in the prospectus. The prospectus and the Key Investor Information Document for the Robeco Funds can all be obtained free of charge from Robeco's websites.

### Additional Information for US investors

Robeco is considered "participating affiliated" and some of their employees are "associated persons" of Robeco Institutional Asset Management US Inc. ("RIAM US") as per relevant SEC no-action guidance. Employees identified as associated persons of RIAM US perform activities directly or indirectly related to the investment advisory services provided by RIAM US. In those situations these individuals are deemed to be acting on behalf of RIAM US, a US SEC registered investment adviser. SEC regulations are applicable only to clients, prospects and investors of RIAM US. RIAM US is a wholly owned subsidiary of ORIX Corporation Europe N.V. and offers investment advisory services to institutional clients in the US.

### Additional Information for investors with residence or seat in Australia and New Zealand

This document is distributed in Australia by Robeco Hong Kong Limited (ARBN 156 512 659) ("RIAM BV"), which is exempt from the requirement to hold an Australian financial services license under the Corporations Act 2001 (Cth) pursuant to ASIC Class Order 03/1103. Robeco is regulated by the Securities and Futures Commission under the laws of Hong Kong and those laws may differ from Australian laws. This document is distributed only to "wholesale clients" as that term is defined under the Corporations Act 2001 (Cth). This document is not intended for distribution or dissemination, directly or indirectly, to any other class of persons. In New Zealand, this document is only available to wholesale investors within the meaning of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (FMCA). This document is not intended for public distribution in Australia and New Zealand.

### Additional Information for investors with residence or seat in Austria

This information is solely intended for professional investors or eligible counterparties in the meaning of the Austrian Securities Oversight Act.

### Additional Information for investors with residence or seat in Brazil

The Fund may not be offered or sold to the public in Brazil. Accordingly, the Fund has not been nor will be registered with the Brazilian Securities Commission (CVM), nor has it been submitted to the foregoing agency for approval. Documents relating to the Fund, as well as the information contained therein, may not be supplied to the public in Brazil, as the offering of the Fund is not a public offering of securities in Brazil, nor may they be used in connection with any offer for subscription or sale of securities to the public in Brazil.

### Additional Information for investors with residence or seat in Brunei

The Prospectus relates to a private collective investment scheme which is not subject to any form of domestic regulations by the Autoriti Monetari Brunei Darussalam ("Authority"). The Prospectus is intended for distribution only to specific classes of investors as specified in section 20 of the Securities Market Order, 2013, and must not, therefore, be delivered to, or relied on by, a retail client. The Authority is not responsible for reviewing or verifying any prospectus or other documents in connection with this collective investment scheme. The Authority has not approved the Prospectus or any other associated documents nor taken any steps to verify the information set out in the Prospectus and has no responsibility for it. The units to which the Prospectus relates may be illiquid or subject to restrictions on their resale. Prospective purchasers of the units offered should conduct their own due diligence on the units.

### Additional Information for investors with residence or seat in Canada

No securities commission or similar authority in Canada has reviewed or in any way passed upon this document or the merits of the securities described herein, and any representation to the contrary is an offence. Robeco Institutional Asset Management B.V. relies on the international dealer and international adviser exemption in Quebec and has appointed McCarthy Tétrault LLP as its agent for service in Quebec.

### Additional information for investors with residence or seat in the Republic of Chile

Neither Robeco nor the Funds have been registered with the Comisión para el Mercado Financiero pursuant to Law no. 18.045, the Ley de Mercado de Valores and regulations thereunder. This document does not constitute an offer of or an invitation to subscribe for or purchase shares of the Funds in the Republic of Chile, other than to the specific person who individually requested this information on their own initiative. This may therefore be treated as a "private offering" within the meaning of article 4 of the Ley de Mercado de Valores (an offer that is not addressed to the public at large or to a certain sector or specific group of the public).

**Additional Information for investors with residence or seat in Colombia**

This document does not constitute a public offer in the Republic of Colombia. The offer of the Fund is addressed to fewer than one hundred specifically identified investors. The Fund may not be promoted or marketed in Colombia or to Colombian residents, unless such promotion and marketing is made in compliance with Decree 2555 of 2010 and other applicable rules and regulations related to the promotion of foreign Funds in Colombia.

**Additional Information for investors with residence or seat in the Dubai International Financial Centre (DIFC), United Arab Emirates**

This material is distributed by Robeco Institutional Asset Management B.V. (DIFC Branch) located at Office 209, Level 2, Gate Village Building 7, Dubai International Financial Centre, Dubai, PO Box 482060, UAE. Robeco Institutional Asset Management B.V. (DIFC Branch) is regulated by the Dubai Financial Services Authority ("DFSA") and only deals with Professional Clients or Market Counterparties and does not deal with Retail Clients as defined by the DFSA.

**Additional Information for investors with residence or seat in France**

Robeco Institutional Asset Management B.V. is at liberty to provide services in France. Robeco France is a subsidiary of Robeco whose business is based on the promotion and distribution of the group's funds to professional investors in France.

**Additional Information for investors with residence or seat in Germany**

This information is solely intended for professional investors or eligible counterparties in the meaning of the German Securities Trading Act.

The Prospectus does not constitute an offer to sell nor a solicitation to buy securities in Indonesia.

**Additional Information for investors with residence or seat in Italy**

This document is considered for use solely by qualified investors and private professional clients (as defined in Article 26 (1) (b) and (d) of Consob Regulation No. 16190 dated 29 October 2007). If made available to Distributors and individuals authorized by Distributors to conduct promotion and marketing activity, it may only be used for the purpose for which it was conceived. The data and information contained in this document may not be used for communications with Supervisory Authorities. This document does not include any information to determine, in concrete terms, the investment inclination and, therefore, this document cannot and should not be the basis for making any investment decisions.

**Additional Information for investors with residence or seat in Japan**

This document is considered for use solely by qualified investors and is distributed by Robeco Japan Company Limited, registered in Japan as a Financial Instruments Business Operator, [registered No. the Director of Kanto Local Financial Bureau (Financial Instruments Business Operator), No. 2780, Member of Japan Investment Advisors Association].

**Additional Information for investors with residence or seat in South Korea**

The Management Company is not making any representation with respect to the eligibility of any recipients of the Prospectus to acquire the Shares therein under the laws of South Korea, including but not limited to the Foreign Exchange Transaction Act and Regulations thereunder. The Shares have not been registered under the Financial Investment Services and Capital Markets Act of Korea, and none of the Shares may be offered, sold or delivered, or offered or sold to any person for re-offering or resale, directly or indirectly, in South Korea or to any resident of South Korea except pursuant to applicable laws and regulations of South Korea.

**Additional Information for investors with residence or seat in Liechtenstein**

This document is exclusively distributed to Liechtenstein-based, duly licensed financial intermediaries (such as banks, discretionary portfolio managers, insurance companies, fund of funds) which do not intend to invest on their own account into Fund(s) displayed in the document. This material is distributed by Robeco Switzerland Ltd, postal address: Josefstrasse 218, 8005 Zurich, Switzerland. LGT Bank Ltd., Herrengasse 12, FL-9490 Vaduz, Liechtenstein acts as the representative and paying agent in Liechtenstein. The prospectus, the Key Investor Information Documents (KIIDs), the articles of association, the annual and semi-annual reports of the Fund(s) may be obtained from the representative or via the website.

**Additional Information for investors with residence or seat in Malaysia**

Generally, no offer or sale of the Shares is permitted in Malaysia unless where a Recognition Exemption or the Prospectus Exemption applies: NO ACTION HAS BEEN, OR WILL BE, TAKEN TO COMPLY WITH MALAYSIAN LAWS FOR MAKING AVAILABLE, OFFERING FOR SUBSCRIPTION OR PURCHASE, OR ISSUING ANY INVITATION TO SUBSCRIBE FOR OR PURCHASE OR SALE OF THE SHARES IN MALAYSIA OR TO PERSONS IN MALAYSIA AS THE SHARES ARE NOT INTENDED BY THE ISSUER TO BE MADE AVAILABLE, OR MADE THE SUBJECT OF ANY OFFER OR INVITATION TO SUBSCRIBE OR PURCHASE, IN MALAYSIA. NEITHER THIS DOCUMENT NOR ANY DOCUMENT OR OTHER MATERIAL IN CONNECTION WITH THE SHARES SHOULD BE DISTRIBUTED, CAUSED TO BE DISTRIBUTED OR CIRCULATED IN MALAYSIA. NO PERSON SHOULD MAKE AVAILABLE OR MAKE ANY INVITATION OR OFFER OR INVITATION TO SELL OR PURCHASE THE SHARES IN MALAYSIA UNLESS SUCH PERSON TAKES THE NECESSARY ACTION TO COMPLY WITH MALAYSIAN LAWS.

**Additional Information for investors with residence or seat in Mexico**

The funds have not been and will not be registered with the National Registry of Securities, maintained by the Mexican National Banking and Securities Commission and, as a result, may not be offered or sold publicly in Mexico. Robeco and any underwriter or purchaser may offer and sell the funds in Mexico on a private placement basis to Institutional and Accredited Investors, pursuant to Article 8 of the Mexican Securities Market Law.

**Additional Information for investors with residence or seat in Peru**

The Fund has not been registered with the Superintendencia del Mercado de Valores (SMV) and is being placed by means of a private offer. SMV has not reviewed the information provided to the investor. This document is only for the exclusive use of institutional investors in Peru and is not for public distribution.

#### Additional Information for investors with residence or seat in Singapore

This document has not been registered with the Monetary Authority of Singapore ("MAS"). Accordingly, this document may not be circulated or distributed directly or indirectly to persons in Singapore other than (i) to an institutional investor under Section 304 of the SFA, (ii) to a relevant person pursuant to Section 305(1), or any person pursuant to Section 305(2), and in accordance with the conditions specified in Section 305, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. The contents of this document have not been reviewed by the MAS. Any decision to participate in the Fund should be made only after reviewing the sections regarding investment considerations, conflicts of interest, risk factors and the relevant Singapore selling restrictions (as described in the section entitled "Important Information for Singapore Investors") contained in the prospectus. Investors should consult your professional adviser if you are in doubt about the stringent restrictions applicable to the use of this document, regulatory status of the Fund, applicable regulatory protection, associated risks and suitability of the Fund to your objectives. Investors should note that only the Sub-Funds listed in the appendix to the section entitled "Important Information for Singapore Investors" of the prospectus ("Sub-Funds") are available to Singapore investors. The Sub-Funds are notified as restricted foreign schemes under the Securities and Futures Act, Chapter 289 of Singapore ("SFA") and invoke the exemptions from compliance with prospectus registration requirements pursuant to the exemptions under Section 304 and Section 305 of the SFA. The Sub-Funds are not authorized or recognized by the MAS and shares in the Sub-Funds are not allowed to be offered to the retail public in Singapore. The prospectus of the Fund is not a prospectus as defined in the SFA. Accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply. The Sub-Funds may only be promoted exclusively to persons who are sufficiently experienced and sophisticated to understand the risks involved in investing in such schemes, and who satisfy certain other criteria provided under Section 304, Section 305 or any other applicable provision of the SFA and the subsidiary legislation enacted thereunder. You should consider carefully whether the investment is suitable for you. Robeco Singapore Private Limited holds a capital markets services license for fund management issued by the MAS and is subject to certain clientele restrictions under such license.
