Past performance information is not indicative of future performance. Investors may not get back the full amount invested. The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested. These figures show by how much the funds and its' share classes increased or decreased in value during the calendar year. Performance data has been calculated in currencies displayed above, including ongoing charges and excluding subscription fee and redemption fee you might have to pay. Where no past performance is shown there was insufficient data available in that year to provide performance. Investment involves risks. Please refer to the relevant offering documents for further fund details including risk factors.
